

DEATH TOLL IN TORNADO PLACED TODAY AT 155

Property Damage in Three Southern States Around \$2,000,000.

HUNDREDS ARE INJURED

Local Facilities For Caring For Stricken People Inadequate and Call Is Sent Out For Aid Storm One of Worst in the South's History.

By Associated Press.
BIRMINGHAM, Ala., April 21.—Revised reports today from the tornado-stricken areas of Mississippi, Alabama and Tennessee make the number of fatalities resulting from yesterday's storm at 155, nine less than first reported today. The later reports told of hundreds injured and estimated the property damage at more than \$2,000,000.

BIRMINGHAM, Ala., April 21.—Astronauts from the outside world is urgently needed for the relief of tornado survivors in a dozen counties of Mississippi, Alabama and Tennessee, reports today from the storm-swept districts said. With a death list of 166 already reported and a property loss which will run into many millions the tornado has taken rank as one of the most disastrous as well as most widespread in annals of the South.
Hundreds of injured require medical attention and the forces of physicians and nurses available locally are inadequate to cope with the situation. Tents and other temporary structures must be erected for numerous families whose homes were obliterated and a shortage of food is keenly felt as a result of the destruction of barns and warehouses, coupled with the complete obstruction of communicating roads.
The storm apparently struck in the Ich farming belt lying around Bay Springs, Jasper county, Miss., and moved northeast across the remainder of the state to vent its fury upon the extreme northwestern tier of counties in Alabama before moving into Tennessee.

All reports agree as to the extreme velocity of the wind which leveled everything in its path. In and near Meridian 21 persons lost their lives while 16 employees at a lumber camp in Neshoba county were killed as the destruction of camp structures.
The deaths in Mississippi already reported total 118. Of these Aberdeen and Meridian had 21 each; Rose Hill, 10; Bay Springs, seven; Glen, 10; Igmar, six; Starkville, six; Neshoba county, 16; Winston county, five, and others scattered. Alabama reported 45 dead, of whom 20 were in Marion county and 15 in Kilgworth Cove. The others were scattered. Only three towns dead were reported in Tennessee.

NEW ORLEANS, Ap 21.—The Gulf Division of the Red Cross has sent a carload of tents, blankets and medical supplies with workers and physicians to Meridian to aid storm sufferers.

JOE MCARTNEY'S CASE ONE OF FEW BAFFLING SURGEONS

Brother of Local Woman Paralyzed from Injury Suffered During Service in France.

Of a half dozen cases of injury to United States soldiers who saw service in France which have baffled surgeons, one is that of Joseph McCartney, brother of Mrs. Peter R. Weimer of Connellsville. McCartney, who was a member of the machine gun company of the 114th Infantry, has been at the Walter Reed hospital, Washington, for several months, his body paralyzed from the waist down. Gradually he is regaining the use of his legs but whether they will eventually become so that he can walk has not been determined.

During the final weeks of the war McCartney and a companion volunteered to go back after ammunition. On the way a high explosive shell landed near them and both were violently hurled to the ground. McCartney did not seem to suffer serious injury at the time. Not until February following the signing of the armistice he became paralyzed. Since then a part of the hip bone, was removed with the result that one leg is shorter than the other.

For months the young man lay in New York hospitals, with only slight hope that he would recover, but the pluck which characterized him all through conquered and he began to mend. He and his young wife are now keeping house near the hospital to which he reports daily, using a wheel chair. McCartney is not yet 21. He was married after entering the service.

It is said there are but six cases of a like nature under the attention of Army authorities. Numerous X-ray examinations have failed to reveal the exact cause of the paralysis.

Special Meeting Called.
A special meeting of Troop No. 5, Boy Scouts, has been called for next Tuesday evening at which all scouts will be re-registered for the ensuing year.

CONNELLVILLE ELECTRIC STEEL NAMES OFFICERS

G. M. Gadsby Made Head of Concern Taking Over Plant of United States Electric Steel.

The Connellsville Electric Steel company was organized in the offices of Sterling, Higbee & Matthews yesterday afternoon, directors and officers being named. The company is the successor to the United States Electric Steel company, the plant of which is located near the West Penn power house along the Troughlohy river. When the United States company failed the plant was bid in by men identified with the newly organized concern.

The plant is not now in operation and no time has been determined on for beginning work. The company will probably lease it.
At the meeting Tuesday the following directors were named: G. M. Gadsby, R. B. Keating and A. V. Bonnett, all of Pittsburgh, and F. W. Wright, Wright & F. E. Markell of this city. Officers elected were: G. M. Gadsby, president; F. W. Wright, vice president; R. B. Keating, vice president; F. E. Markell, treasurer, and G. E. Murrie, secretary. Connellsville stockholders may call at the Citizens National bank and secure their stock certificates.

SPEAKING TOUR ENDS

Rev. Edwards at Atlantic City Tomorrow; Will Return For Sunday.

Rev. J. Earle Edwards, pastor of the First Baptist church of Connellsville, who has been speaking in the churches of Pennsylvania in the interest of the New World Movement, will close his engagements in Atlantic City Thursday evening of this week and return home in time for the Sunday services, April 25. Over 60 churches have been covered. The trip has reached the four corners of Philadelphia and Chester, and gone into Delaware state, up the Pennsylvania valleys as far as Wilkes-Barre, and into New Jersey down to the shore at Atlantic City. With the exception of two days when Rev. Edwards was forced to lay off on account of a severe cold the engagements have been kept on successive days.
"Connellsville had been heretofore at each place as the leader in New World interest long before the speaker had arrived," a letter from Rev. Edwards says. The previous announcement that the Connellsville church had been the forerunner has since been proved. While three other churches have since made their quota Connellsville was the one to set the pace a month in advance of the other churches of the country."

JAPAN PANICKY

Large Banking Firms Reported to Be in Financial Distress.

By Associated Press.
HONOLULU, April 21.—Panicky conditions reign in Japan, according to a cablegram from Tokyo received today by a Japanese language newspaper here.

WASHINGTON, April 21.—The American embassy at Tokyo reported to the State Department Tuesday under date of last Saturday that the principal stock exchanges of Japan had been closed for three days because of failure of operations to put up additional margins.

The report added that Tokyo exchange stock, regarded as a barometer of general conditions, had dropped from 470 to 260 within the last 30 days and that there had been some stringency in the money market.
Rumors have been widespread in this country that some of the large banking firms in Japan were experiencing financial difficulties.

24 CARS PILE UP

Enginemen Scalded in Serious Crash at Mapleton.

By Associated Press.

HUNTINGDON, Pa., April 21.—Traffic on the middle division of the Pennsylvania railroad was suspended this morning by a serious freight wreck at Mapleton, eight miles east of this place. A westbound freight was wrecked by a broken wheel. An eastbound freight plunged into the wreckage. Twenty-four cars were demolished, the debris being piled high on all four tracks. The roadbed was torn up for half a mile. The wrecked trains were loaded with coal, lumber and iron.

F. E. Shultz, engineer; Fred Smith, fireman, and Elmer Beatty, fireman, of the east bound train, all of Altoona, were seriously scalded when their engine overturned.
Steering Gear Breaks.
An automobile driven by Jerry Shuster was damaged last evening when the steering gear broke while the machine was crossing the West Penn tracks near Poplar Grove. The car ran over an embankment and slightly injured the driver's mother and sister, who were passengers. The car was badly wrecked.

Ohio River at Flood Stage.
COLUMBUS, Ohio, April 21.—Although practically all rivers in Ohio were banked full their entire length and were flooding the lowlands in many places, the United States weather bureau announced that serious flood conditions have not yet developed.

CHICAGO STRIKERS HOOT DOWN MEN WHO URGE THEIR RETURN

Waving of American Flag Fails to Bring Result the Speaker Sought.

TRAFFIC IS IMPROVING

More Freight Being Moved in Pittsburgh Section, Officials of the Roads Declare, Though Some Men Are Still Out; Passenger Service Is Normal.

By Associated Press.

CHICAGO, April 21.—Striking railroad men in the Chicago district refused today to vote on the question of returning to work.
All efforts of a committee of leaders to obtain action failed.
M. J. Kenney, R. S. Murphy and Shannon Jones, three of the strike leaders arrested last week, made the appeal for a return to work at a mass meeting of striking yardmen.

They were greeted with cries of "sold," "outside" and "where's Grunau?" Jones explained that efforts to obtain the release of Grunau, president of the Chicago Yardmen's association from Joliet jail on bond had not been successful.

Murphy, waving an American flag, took the floor to declare he would "not fight the American government." He was greeted with cat calls and hisses.
Union leaders declared after the meeting they were helpless to order the men back to work. A police lieutenant declared the meeting adjourned after the strike leaders had been refused a hearing. He announced that no "rump" meeting would be permitted and the hall was cleared under police supervision.

The strikers left the hall and, after some discussion, marched across the town to their headquarters where they resumed the session. Many of the men declared Kenney, Murphy and Jones had no authority to advise them to return to work. Only Grunau could do that, they declared.

PITTSBURGH, April 21.—Continued improvement in the freight and traffic situation was reported by the railroads entering Pittsburgh today. It was pointed out, however, that numbers have steadfastly refused to go back and the strike in some yards is still on.

The Pittsburgh & Lake Erie reported the movement of a train of goods of perishable nature yesterday. Passenger traffic, it was added, had become normal. The Baltimore & Ohio also showed some improvement but freight movements generally are still under restraint. Mines along the Connellsville division were gradually returning.

Continued increase in freight movement in the central region of the Pennsylvania was reported at headquarters, firemen on the Panhandle line having voted to return to work. This action will affect the men in the South and Carnegie yards and eliminates the operation of passenger trains out of Washington, Pa., by volunteers.

CONSTANTINE PASSES

Local Young Man Will Enter West Point Military Academy in July.

Joseph P. Constantine, Jr., son of Joseph Constantine of 344 North Arch street, has received a telegram from Representative S. A. Kendall informing him that he has passed the physical examination for entrance to West Point. Mr. Constantine was exempted from the mental tests, his certificate from the Connellsville high school being accepted by the academic board. He underwent the physical examination on April 17 at the Army Medical college, Washington, D. C.
Mr. Constantine will report to West Point in July, when the classes resume.

LITTLE WORK DONE

Some "Y" Canvassers Picking Up Members in Lay-off Period.

Some little progress among Y. M. C. A. workers during the period that active campaigning has been postponed, is being reported. No date has yet been set for the resumption of the drive but here and there a membership is being picked up by a worker who wishes to have a good report on the first night after the teams get back into the "game."

Last reports gave the "Americans," composed of city men, a good lead over the "Nationals" or railroad men. The railroaders expect to have better success now that the strike has ended.

FUND STILL SHORT

Another Day's Intensive Campaigning Necessary to Get \$1,000.

With the fund for Company D still short about \$1,000 no plans have been made for any immediate resumption of the campaign. With the money which is still in the hands of team captains and unreported, it is estimated the total would reach \$2,000. The goal of the drive was \$3,000. The campaign, which started off with more than \$1,000 subscribed on the first day, has lagged several weeks. It has been planned to hold one more day's intensive canvass to finish up. No further reports have been made to Treasurer A. B. Hood.

RAINEY INTERESTS PAY \$3,000,000 FOR GREENE COUNTY COAL

Total of 2,600 Acres Reported to Have Changed Hands in Deal Concluded in Pittsburgh.

According to information in Uniontown coal and coke circles, but lacking official confirmation, sale of 2,600 acres of Greene county coal by the Youghiogheny & Ohio Coal company to the W. J. Rainey interests for nearly \$3,000,000 has been about concluded in Pittsburgh.

It is understood that the terms of the transfer have been agreed to and that deeds of the formal sale are now being prepared.

The tract located in what is known as the Clarksville tract in the northern section of Greene county brought \$1,380 per acre, which is said to be a new high figure for coal lands in that section of Greene county. The tract is located along Ten Mile creek.

The purchase is being made by the W. J. Rainey interests, it is understood, to provide a reserve source of fuel for the by-product plant of the Rainey-Wood company in which the Rainey interests are heavily interested. The Uniontown office of the W. J. Rainey company had no announcement to make regarding the sale.

BUDGET CHURCHES ASK SMALL SUM, DR. BROMLEY'S VIEW

Millions Sought Could Be Raised Many Times Over Minister Asserts.

By Dr. J. S. Bromley, Uniontown.

The budget of the Interchurch World Movement asks for \$336,777,572 this year.

Can the Protestant denominations of the United States furnish such a sum? Most assuredly they can, and many times that amount. This statement is not made thoughtlessly. As a nation we are today the richest nation on the face of the globe. During the last five years, according to the secretary of the treasury, "we have been transformed from a debtor to a creditor nation."

Instead of borrowing, we are loaning money in all five continents. The United States dollar is a more important unit in international exchange than the English pound sterling. New York is the money center of the world. The savings of New York State on the first of January, 1919, reported \$225,000,000,000, or \$25,500,000 more than on the first of January, 1918.

While we were at war we laid up in perfectly good savings, \$1,000,000,000 a month in Liberty bonds.

Considerable of this money is in the hands of Christians. A tithe of what they possess would so enrich the church that she would be able to minister more efficiently than she has ever done to the manifold needs of humanity, and thus hasten the day of world redemption.

No Jew could give for religious purposes less than the tenth of his income and be acceptable to God. He who recognized the tithe as a minimum and cheerfully gave more honored the Lord with his substance. Will a healthy intelligent Christian conscience prompt a man to give less than the least given by the poor Hebrew?

Will men rob God? Wherein have they robbed Him? In tithes and offerings. Look at some facts. In 1918 the Protestant churches of the United States expended for local and benevolent work \$249,778,535. In the bulk this is a large sum, but when considered from the standpoint of the individual contribution it is very small. It is the tithe of 27 cents a day, or two cents and seven mills per member per day. The members of the Presbyterian church gave five cents and six mills per day. If the members of all our churches could be lifted up to that standard we could maintain all the work of 1918 and have a margin of \$239,122,758. Seventh Day Adventist give 11 cents, six mills per day. Such giving practiced by all the members of the Protestant churches of our country would provide for new work \$81,915,547. The reason why this small denomination of poor people has such a splendid record for giving is, because they tithe.

Continued on Page Two.

Receiver Appointed.
As the result of action instituted last July by J. Lawrence Schick, a stockholder, Judge Van Swearingen yesterday appointed H. George May receiver of the Highland Chemical Products company, manufacturers of a protective liquid coating for iron pipe.

Weather Forecast

Fair and cooler tonight; Thursday, cloudy; showers probably late Thursday afternoon or night is the noon weather forecast for Western Pennsylvania.

Temperature Record.
1920 1919
Maximum 70 80
Minimum 56 49
Mean 63 60
The Yough river rose during the night, from 4.75 feet to 6.10 feet.

CARRANZA LOSES SUPPORT OF GEN. MAYCOT'S FORCES

Mexican Leader Operating Near Capital Joins Obregon Forces.

WASHINGTON IS NOTIFIED

Rebellious Troops Constituted Entire Following of Former Federal Officer; Obregon and Others With Contingent, Made Up of Five Regiments.

By Associated Press.

WASHINGTON, April 21.—Official and unofficial reports received here today from Mexico told of further defections from the ranks of Carranza adherents.

Advices to the State Department said that General Maycot, had joined the Obregonistas with his entire command, which had been operating a short distance west of Mexico City.

Obregon, General Benjamin Hill and a number of friendly officials who recently fled from Mexico City are with Maycot's command which consists of three regiments of cavalry and two of artillery.

K. OF P. BANQUET

Hundred Eighty-Five Visiting Lodge-men at Star Junction Gathering.

On Saturday evening the Knights of Pythias of Star Junction entertained 185 knights from Monessen, California, Fayette City, Bella Vernon, Brownsville, Smithton, West Newton, Charlestown and Connellsville when 12 candidates received the rank of 32, square and knight. After the work was conferred lunch was served by a committee composed of H. Clyde Elkins, Frank Elwell, Charles Johnson, John Quinn and William Newcomer.

On the night of April 29 Star Junction lodge will visit Monessen lodge where some high class degree work will be conferred.

CHRISTIAN TEAMS MEET

Partial Instructions Given Relative to Drive for \$66,000.

Instructions to members of the Christian church teams who are to canvass the membership next Sunday for a fund of \$66,000 to finance a Sunday school plant and the church's share in the Interchurch World Movement plan were given in part last evening following a dinner at the church, served by a committee of women headed by Mrs. W. C. Reynolds.

Talks were made by Benton Boyd, director of the drive; Rev. and Mrs. G. W. Buckner, Harry Restolski, J. E. Angie and E. T. Norton. Lists of persons to be canvassed were made up. There will be another meeting Friday evening at 6:30 at the church.

SITUATION UNCHANGED

P. & L. E. Men Refuse to Return to Work at Dickerson Run.

The strike situation on the Pittsburgh & Lake Erie railroad is still unchanged at Dickerson Run today. The men held a meeting last night but made no announcement of any action taken. It had been the intention to send some of the men to McKees Rocks today but this trip was called off.

There is no freight whatever moving through the yards at Dickerson Run. The car shop men were laid off at 11 o'clock this morning. Since the strike was called there has been little work for them. Other shopmen are still at work.

THREATENS PROSECUTION

Health Officer Hetszel Promises Arrests for Dumping Waste.

Health Officer George Hetszel this morning issued a warning that he would make arrests if further violations of city health ordinances were continued by residents in the vicinity of the East Park addition bridge. Complaints have been made that some persons are throwing tin cans, garbage and other rubbish over the bridge.

The health officer is conducting an investigation into the sanitary conditions surrounding the milk supply coming into this city.

Johnson in Lead.
OMAHA, Neb., April 21.—With returns from 336 out of 1,549 precincts heard from early today Senator Johnson led the field of candidates for Republican presidential preference in yesterday's primary. The vote was Johnson 12,002; Wood 8,711; Pershing, 5,568; Ross, 481.

Veterans' Trip Postponed.
On account of the funeral of James H. Barnhart tomorrow morning, members of William J. Kurtz Post No. 104, Grand Army of the Republic, have postponed their visit to the Vanderbilt schools until Friday morning.

Pony Is Stolen

J. W. Darger of McCormick avenue has reported to the police the theft of a pony belonging to him. The animal is described as being a spotted mare.

Measles Cases Reported.
Two cases of measles were reported to the board of health this morning.

A SMOKER FOR NEW MEMBERS OF CO. D ON FRIDAY EVENING

Plans to be Considered for Final Recruiting Drive Which Will Close Next Week; Sponsors Busy.

A smoker and lunch for the newly enlisted members of Company D will be held at the armory on Friday evening at which plans for completing the recruiting of the company will be considered.

The decision has been reached by Captain Skomp that if the indications by next Monday night are not such as will insure securing sufficient men from Connellsville and vicinity to fill the quota by May 1, he will report conditions to headquarters expecting to receive prompt instructions to accept the offer of some other towns in the county to provide the men needed to complete the reorganization.

Medical examination of the recruits is now in progress a number being passed upon by Major McKee, regimental surgeon, each evening.
The members of the Sponsor's club have distributed and are wearing a ribbon bearing the legend, "Boost Company D," which is serving to arouse new interest in the closing days of the campaign.

Company M of Latrobe will be mustered in next Tuesday evening. Not quite the full strength has been enlisted but it is expected all the recruits required will be enrolled by the time fixed for muster.

WEST PENN MEN CONFER

Officials of Trolley Company Greet Employees at Tea Room.

Get-together sessions between Vice President and General Manager Harry L. Mitchell and West Penn street car men are being held here today. The first meeting was this morning at 11:30 o'clock when part of the Connellsville motormen and conductors gathered with him at the West Penn Tea Room. General Superintendent Daniel Durie and Assistant General Superintendent Ernest R. Kooser were also present.

Tonight at 5 o'clock another meeting of a similar nature will be held at the same place to allow the remainder of the local crews to chat with Vice President Mitchell.

The meetings between the men and Mr. Mitchell are being held at all places on the West Penn system. A gathering was held at Greensburg yesterday and one has been scheduled for Uniontown tomorrow.

BANQUET CALLED OFF

Interchurch Campaign Interferes With Second Feast Plans.

At one of the most enthusiastic gatherings of Boy Scouts and members of the local council in the Cameron school last night, attended by about 70 in all, the father and son banquet planned for Friday evening at the First Presbyterian church was indefinitely postponed. This action was taken at the suggestion of some members of the council who pointed out that many of the churches were holding suppers on that night for the canvassing teams which will go out in the Interchurch World Movement campaign.

Such gatherings at other churches would detract from the interest in the scout festival and postponement was considered best. The date will be determined after the church drives are over.

TAX OF \$7,000,000

Likely to Be Imposed Upon Frick Estate in Pennsylvania.

A decision of the State Supreme court on Monday having confirmed the decision of the court of Allegheny county that the estate of the late Theodore Hostetter must pay direct and collateral inheritance taxes of approximately \$88,000 on property valued at \$5,500,000, notwithstanding the heirs claimed their residence in New York state, it is believed upwards of \$7,000,000 in taxes will be exacted from the estate of H. C. Frick.

The situation with respect to the Frick estate is the same as in the case of the Hostetter estate, hence the latter will be subject to taxation. Frick property, valued at \$150,000,000, is in Western Pennsylvania, while the heirs are residents of New York.

NEW ORPHANS' HOME

Large Part of Sum Necessary for Odd Fellows Project Received.

John Wilder, representing William McKinley Lodge, Independent Order of Odd Fellows, W. L. Robbins, Grand Worthy, Encampment, and T. H. Edmunds, General Worthy lodge, were at Ben Avon yesterday attending the annual convention of the Ben Avon Orphans' home.

Discussion of plans for the new home to be erected at Ben Avon was the principal business. A large part of \$200,000 the cost of the new home, was received yesterday by voluntary subscription.

"TIGER" HOME AGAIN.

Clemenceau Alert and Smiling; Refuses to be Interviewed.

PARIS, April 21.—Former Premier Georges Clemenceau, who had been visiting Egypt for two months, arrived here this morning.

M. Clemenceau was alert and smiling but avoided interviewers and would not be photographed.

GERMANY ASKS TO BE PERMITTED TO KEEP ARMY ALIVE

Retention of Entire General Staff Proposed in Note to Allies.

DOUBLE FORCE AT ONCE

Hundred Thousand Limit of Treaty of Versailles Inadequate, Communication Says; French Premier Refused to Agree to Withdrawal of Troops.

By Associated Press.

PARIS, April 21.—Germany has asked the Allied conference at San Remo to increase from 100,000 to 200,000 men the standing army provided for Germany by the treaty of Versailles.

The request was contained in a note handed to the French foreign office last evening with the demand that it be sent to the supreme council at San Remo.

The note set forth that an increased force was necessary for the maintenance of order in the interior and that furthermore the army would not accept an order for its dissolution. The note further requested that Germany be allowed to retain the entire general staff and corps of officers, which means the entire framework of the active army.

PARIS, April 21 (Havas).—Withdrawal of Allied troops from part of the Rhineland in consideration of certain financial obligations of the treaty of Versailles is proposed by Italy and Great Britain at the conference of the supreme Allied council, says a newspaper dispatch here. Premier Millerand has refused to agree to this plan, it is said.

SAN REMO, April 21.—Premier Nitti of Italy, speaking today with reference to that country's policies towards Germany, Austria and Jugoslavia and also on the financial situation of Italy charged that a campaign of falsehood had been conducted by unknown persons against his country.

WASHINGTON, April 21.—Ambassador Johnson at Rome was instructed by the State Department to attend the Allied conference at San Remo as an official observer for the American government. He will not participate in the discussions or deliberations.

Ambassador Johnson is expected to go to San Remo today. It was said at the State Department that his instructions were similar to those given to Ambassador Wallace when he was delegated as an observer at the meeting of the Allied ambassadors at Paris. Johnson will report to the department on decisions by the Allied conference. Before the conference met Italy invited the United States to send a representative.

FURTHER PAPER CONSERVATION IS A NECESSITY

Conditions Worse Than Last Six Months Ahead Unless There Is Drastic Action, Publisher Says.

NEW YORK, April 21.—Franklin E. Glass, president of the American Newspaper Publishers' association, gave warning at the annual convention here today that newspaper publishers must make further conservation of newspaper paper if they were not to have a worse time next fall and winter than they had in the last six months.

U. S. STEAMER SINKING

Tug from London on Way to Assistance by the Waypoint.

By Associated Press.

LONDON, April 21.—A report to the Lloyd's shipping agency today says that the American steamer Waypoint is sinking in latitude 42

Social

G. A. R. POST CELEBRATES

COMRADE COLLINS' BIRTHDAY

Surrounded by relatives and Civil War comrades, Clark Collins, a former postmaster of Connelville, and widely known in this community, celebrated his 75th birthday anniversary yesterday afternoon at the home of his son, John L. Collins, in North Cottage avenue. Following the birthday toast of William F. Kurtz, Post No. 104, Grand Army of the Republic, attended the birthday gathering one of the best they had ever attended. A program including short talks by Captain Edmund Dunn, Lyman S. Strickler, A. S. Haddock and William Artz, a duet by Mrs. Joan Gilbert and Mrs. Jennie E. Fitch, a vocal solo by June Collins, small daughter of the honor guest, and a cornet solo by Kelson Atkins, was carried out. A delicious luncheon, served by Mrs. Collins and her aides, followed. The favors were small American flags. Members of Mr. Collins family were present as follows:

Mrs. W. T. Reid, Denbo; Mrs. Anna Way, Pittsburgh; Mrs. W. G. Cochran, and John L. Collins, children; Mrs. Joan Gilbert, Denbo, and Mrs. E. Daniels, grandchildren. Civil War veterans present were: W. J. Clark, Lyman S. Strickler, John R. Dunham, James G. Hicks, L. W. Wolfe, A. S. Haddock, A. Drebert, W. H. Shaw, C. H. Whitely, Captain E. Dunn, Israel Miller and William Artz.

Dr. Lesher to Speak

Dr. Lesher, a medical missionary, who recently returned from China, will speak tomorrow night in the Baptist church at Dunbar on "Medical Missions of China." Dr. Lesher's talk promises to be instructive as well as entertaining. He has been sent out in the interest of the Interchurch World Movement. The public is invited to the lecture.

Evening at Fancypark

The M. E. C. Fancypark club was delightfully entertained last evening by Mrs. Harry DeBolt at her home at South Connelville. Fancypark was the amusement, followed by dainty refreshments.

Episcopal Meetings

The Bible class of Trinity Episcopal church will meet Friday night at the home of Mrs. Paul Garke, 210 Washington avenue. The Women's Guild will meet tonight in the church house instead of Thursday night as announced on Sunday.

Mrs. Strickler to Hostess

Mrs. G. M. Strickler is entertaining the Vanderbilt Fancypark club at her home at Vanderhill. At noon a well appointed dinner was served.

Class Elects Officers

Officers for the ensuing year were elected as follows at the regular meeting of the N. C. D. class of the first Methodist Episcopal Sunday school held last evening at the home of Mrs. J. W. Raudman in Morrell avenue: President, Mrs. L. S. Michael; vice president, Mrs. Delwiler; secretary, Mrs. George Fuchrer; treasurer, Mrs. W. E. Kerr. Forty-four members attended. The business was followed by a social hour and refreshments.

Kilbuck Club Postponed

Mrs. David Foltz will entertain the Kilbuck Club at her home on Main street, Vanderhill, Tuesday evening, April 27, instead of Thursday evening, April 22.

Gogulke Reshenberg

The marriage of Miss Hilda Gogulke and Herbert Reshenberg, a well known couple of Brookvale, will be solemnized tonight at 7 o'clock at St. John's German Lutheran church, with Rev. George Dietz, the pastor, officiating. The bride will be attended by Miss Olga Smilke, Paul Binkley, a cousin of the bridegroom, will be best man. Miss Gogulke was a check writer at the United Supply company store at Trotter until recently. Mr. Reshenberg is a son of Mr. and Mrs. Peter Reshenberg of Brookvale and is a veteran of the World War. He is employed by the H. C. Frick Coke company at Trotter.

Annual Tennis Racket Dance

About 150 couples attended the annual "Tennis Racket" dance of the Connelville Tennis association held last night in the armory. The dance was perfect in all the appointments, the large hall being gaily decorated for the occasion. Suspended from the center of the ceiling was a large circle from which ribbon streamers in rainbow shades extended to the four corners of the hall. Warring's band orchestra of Pittsburgh furnished the

music. Refreshments were served

Among the out-of-town guests were Joseph Onkes, S. W. Seawans, S. E. Dickson, J. D. Huges, Harold Steelson, L. Miner, John O'Brien, J. A. Cofferty, H. F. Cause, W. E. Cole, Arthur Miller and Clifford Smith, all of Scottsdale; O'Neil Kennedy, W. D. Divens, E. Little, E. U. Shonk, W. E. Hankins, Mr. and Mrs. Thomas Whaley and Mr. and Mrs. William Henderson and Harry Sharps, Uniontown; R. J. Ryan and D. N. O'Brien, Everson; Charles Greaves, Dunbar; S. F. Cossler, Raymond; Col. E. Williams and Malcolm Scott, Pittsburgh; J. R. Kerns, Mount Pleasant; W. J. Shannon, Mopessa.

Prettily Appointed Dinner

Mrs. C. S. Gault gave a prettily appointed six o'clock dinner last evening at her home in Uniontown in honor of Mr. and Mrs. Audrey Skomp of this city, who were recently married. Covers for 15 were laid. Mr. and Mrs. Skomp were presented by their friends with a chest of handsome silver. Later in the evening a large number of other friends of Mr. and Mrs. Skomp assembled at the Gault home, each bringing a gift. Mrs. Skomp was Miss Anna Kramer, before her marriage and is well known throughout the county as a Red Cross nurse.

Tedrow-Finrock

Clyde Edward Tedrow of Scottsdale and Edith Inga Finrock of Mount Pleasant were granted a license to wed in Cumberland.

Uniontown to Graduate 125

One hundred twenty-five members of the senior class of the Uniontown high school will receive their diplomas at commencement exercises on May 27.

Annual Spring Luncheon

Mrs. Ellis B. Burgess was honor guest at the annual spring luncheon of the Outlook Club, held yesterday afternoon at the home of Mrs. Arthur P. Freed in South Ninth street, Greenwood. Mrs. Burgess expects to leave soon for her new home in Pittsburgh. Covers for seven were laid. A mound of spring flowers formed the attractive centerpiece. The table was also adorned with a large cake, bearing 12 candles significant of the 12th anniversary of the club. Following the luncheon the afternoon was spent in a most enjoyable manner, a program including an interesting paper by Mrs. John B. Davis and musical numbers being delightfully rendered.

Plan for Dance

The committee of George Washington Branch, Friends of Irish Freedom, met last night in the Knights of Columbus club room and completed arrangements for a dance and card party to be given Monday evening, April 26, in the parochial school auditorium. The committee appointees are as follows: Reception, Mrs. J. J. Dougherty, Mrs. H. B. Brown, Mrs. James Barrett, Mrs. Joseph McGrogan and Mrs. J. M. Ritchie; cards, Mrs. J. L. Dalton, Mrs. Mary Creighton and Mrs. M. B. Pryce; lunch, Mrs. Anastasia Hickey, Mrs. Richard Rear, Mrs. John T. O'Donnell, Mrs. J. J. Harpke, Mrs. Dennis Mahoney, Mrs. Margaret Mullin, Mrs. Joseph Cuneo, Donald Snyder, floor, Charles Whitely, Edward Miller, Joseph Tipton and Michael O'Connor.

Pinkey-Kearns

Announcement has been made of the marriage of Miss Cora Pinkey and Henry Kearns, a well-known couple of Broad Ford, solemnized Saturday night at the home of Mr. and Mrs. George Nicklow at Broad Ford. Justice of the Peace James Cossell officiated. Following the ceremony Mrs. Nicklow served refreshments. Attractive decorations prevailed.

Dance at Parochial Hall

The second of a series of dances to be held under the auspices of a committee composed of F. J. Cuneo, C. P. White, C. A. McKevitt and J. B. Dowling will take place this evening in the parochial hall. Invitations have been out for some time and a good crowd is expected.

PERSONAL

Miss Sue Barthelm of Cle Elum, Washington, is visiting her cousin, Mrs. John Wilder of South Connelville. At the conclusion of her visit at the Wilder home she expects to leave for a visit in Washington, D. C., Hubbard, Ia., and other interesting points. She expects to be absent from home for three months.

C. H. Crowley left today for Bentleyville, where he will be employed by the West Penn power company.

BUDGET CHURCHES ASK SMALL SUM, DR. BROMLEY'S VIEW

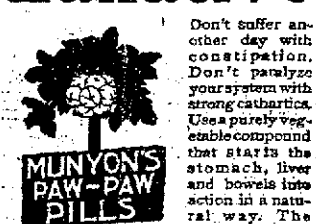

Continued from Page One. Thirteen cents, seven mills per day, or the title of \$1.37 cents, from each member of our Protestant churches would furnish the colossal sum of one billion dollars over and above what was given in 1918. That would enable the church to provide in a generous fashion for the world's need.

Ability and opportunity mean responsibility. According to this the major part of the burden of providing men and means for the foreign field will have to be borne by the churches of the United States. Germany, as a factor in missionary endeavor, has for the present, been practically eliminated. The same is true of other continental countries. Hence the British Empire and the United States must shoulder the responsibility of world evangelization. But while the British churches will give their full measure of devotion to the task, in view of the larger sacrifices both in men and money which the World War required of Britain and her colonies, it is evident that the bulk of the workers and cash must come from the evangelical churches of the United States.

The crisis we are now facing means for our churches opportunity. We can minister to the needs of men as no other nation can. By our gifts we can touch every continent and do a work for Christ unequalled in all the ages. The whole world is watching us. Our Savior is depending on us. The great commission is His estimate of His people's trustworthiness. When He said to His disciples, "Go into all the world and preach the Gospel to every creature," He committed the future of His cause to them. He has no other plan for world redemption. Let us in this day of days strive to measure up to His estimate and prove that we are worthy to carry world responsibility.

The splendid success of the Methodist Episcopal church in its Centenary Movement, and of the Southern Baptists in their drive for \$75,000,000, proves that our task is perfectly feasible. "Bring ye all the tithes into my house."

DR. ARTHUR S. HAGAN DIES FOLLOWING A SURGICAL OPERATION

Formerly a Leading Physician, He Had of Late Years Devoted His Attention to Business.

Dr. Arthur S. Hagan, physician, business man, banker and one of the most prominent citizens of Uniontown and well known in Connelville, died Tuesday evening at 9 o'clock at the Lakeside hospital, Cleveland, Ohio, where he underwent an operation Monday morning at 10:30 o'clock. Dr. Hagan left Uniontown for Cleveland last Friday following a recurrence of a trouble which necessitated a prior operation several months ago. Death was due, directly to acute dilatation of the heart. Had he lived until next June 21 he would have been 42 years old.

Although Dr. Hagan was educated a physician, being a graduate of the University of Pittsburgh, class of 1901. In recent years he had devoted his attention almost exclusively to the L. A. Hagan Ice Cream company of which he was secretary and treasurer, and which maintains a branch in Connelville.

Following his graduation from the medical department of the University of Pittsburgh, Dr. Hagan commenced practicing medicine at Fairchance. A year later, in 1902, he was elected county coroner for a six year term, serving until 1908. He was the last coroner to serve for that period, the term being reduced to four years, when Dr. Harry J. Bell of Dawson was elected to succeed him.

Shortly after the expiration of his term as coroner, Dr. Hagan moved to Uniontown where he established himself as a practicing physician. At the death of S. Paul Hagan, he assumed his brother's interest in the I. N. Hagan Ice Cream company.

Throughout his entire life Dr. Hagan was active in politics and the Republican party in 1911 again claimed his attention, being elected school director for two years. He was re-elected for a six-year term in 1913 and last fall was again re-elected for a second six-year term. He had been treasurer of the school board for four years.

Dr. Hagan was born in Uniontown June 21, 1878, and received his education in the Uniontown high school, graduating from that institution. He was son of Isaac Newton and Arabella Bunting Hagan, the latter deceased. Dr. Hagan married Elizabeth Rhoades, who survives him, together with the following children: Charles R. Hagan, Alice R. Hagan, Arthur Hagan and Flora Elizabeth Hagan. In addition to his father, Dr. Hagan is survived by two brothers, Charles F. Hagan and Amadeo J. Hagan, and by one sister, Mrs. D. Guy Johnston, all of Uniontown.

Dr. Hagan was a member of various Masonic organizations and of the Uniontown Lodge No. 370, E. P. O. Elks. He was also an active member of the Asbury Methodist Episcopal church.

WILLIAM CROSSLAND, William Crossland, 54 years old, a veteran employee of the H. C. Frick Coke company, died Tuesday morning at the County Home, Uniontown. The deceased had worked at Davidson and was well and favorably known in that vicinity. He was born January 9, 1866, a son of William and Julia Stuck Crossland.

The body was brought here and removed by Funeral Director C. C. Mitchell to the residence of Mrs. Oliver Deaver at 54 Davidson, where the funeral will be held tomorrow afternoon at 2 o'clock. The interment will be made in Hill Grove cemetery.

MISS IRENE CARETTI

The funeral of Miss Irene Caretti was held this morning at 9 o'clock at St. Rita's Italian Catholic church in the West Side. Requiem high mass was celebrated by Rev. Father Henry Devine in the presence of a number of relatives and friends of the deceased. The pallbearers were Alfred De Pol, R. DePol, Victor Vauti, Angelo Cunniff, Lorenzo Cusano and M. Farina. The interment was in St. Joseph's cemetery.

After Whooping Cough—What?

This is No. 4 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vicks' Vapo-Rub may be of value in this condition.

Whooping cough is the "meanest" disease that childhood is heir to. While rarely fatal in itself, except to children under two years of age, still it hampers so long—the coughing paroxysms are so violent, preventing proper sleep and digestion—that when the disease does disappear it leaves the child weakened and run down. In addition the violent coughing racks and strains the air passages and after recovery this irritation frequently remains.

During this period of convalescence the child should be most carefully watched until full strength is restored and the air passages regain their normal tone. A prominent authority even goes so far as to say—"There is more criminal neglect in connection with whooping cough than with any other disease."

While the disease is active, Vicks' VapoRub usually helps to lessen the violence of the coughing, but it is during convalescence that Vicks is most valuable.

Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, at tract the blood away from the congested spots and relieve the cough. In addition the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with ho flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapor arising may be freely inhaled. If the cough is annoying swallow a small bit the size of a pea.

Children's digestions are delicate—easily disturbed by too much "dosing." Vicks, therefore, is particularly recommended since it is externally applied and so can be used often and freely without the slightest harmful effects.

Samples to new users will be sent free on request to the Vicks Chemical Company, 234 Broad Street, Greensboro, N. C.

High School Literary Soci- eties Repeat Shakespe- rean Program.

EAST-SCOTSDALE YOUTH DIES

Appendicitis Fatal to Angelo Maglieri, at Memorial Hospital; Candidates for Pastor of the United Presbyterian Church Are to Be Heard.

Special to The Courier.

SCOTSDALE, April 21.—The A. and B. Literary societies of the high school last evening repeated "Scenes from Shakespeare" for the benefit of the parents and a few invited guests at the high school building. The program was under the direction of Mrs. Jane D. Porter. Those taking part were Frank Lester, William Jarrett, Lloyd Hernley, Edward Lyon, Joseph Kennedy, Earl Pirl, James Lynch, William McGoogan, Wendell Loucks, Eva Stauffer, Elsie Hawthorne, Mildred Reed, Goldanna Leasure, James Gordon, Roger Myers, Lyle Stoner, Anna McGivern, M. Louise Porter, Eleanor Stevens, Frances Reynolds, Wilbur Fyle, Garrett Lemon and Eleanor Yahner.

Young Man Dies of Appendicitis. Angelo Maglieri, 18 years and 10 months old, died yesterday morning in the Memorial hospital, Mount Pleasant, where he underwent an operation for appendicitis. The body was brought to the Ferguson undertaking parlors and later removed to the home of the boy's parents, Mr. and Mrs. Michael Maglieri, at East Scottdale. The parents, one sister and three brothers survive. Funeral services will be held Thursday morning at 10:30 o'clock at St. Ignace church.

To Hear Pastoral Candidates. Next Sunday the United Presbyterian church will hear candidates for pastor of the church. Rev. H. W. Miller, the former pastor, who underwent an operation at the Columbia hospital, Wilkinsburg, is able to be downstairs.

Son Is Born. A son was born to Mr. and Mrs. A. L. Wyke at the home of Mrs. Wyke's parents, Mr. and Mrs. E. F. DeWitt. Miscellaneous Shower. Miss Mabel Ziron gave a miscellaneous shower at her home last evening for Miss Edith Percy, whose engagement to Arthur Sawyer was recently announced.

Scottdale Taxi Service. Call 199-J Bell.—Adv-5-121.

Captain Hobson to Speak. Captain Richmond Pearson Hobson, who is on a five-week tour of the state, will speak twice in Scottdale Sunday, April 25, appearing in the Methodist Episcopal church in the morning and in the afternoon at 2:30 o'clock in the First United Brethren church.

CAPTAIN RICHMOND P. HOBSON

In discussing the questions which the country is facing today, Hobson in his address, "America and the Destiny of the World," makes a vigorous stand for the 18th amendment and urges an active law enforcement policy.

Captain Hobson served 18 years in the Navy and retired with a record for heroism which will live through

HOW TO RAISE BABY CHICKS

Put Avicol in the drinking water.

Most people lose half of every hatch, and seem to expect it. Chick cholera or white diarrhoea is the trouble. The U. S. Government states that over half the chicks hatched die from this cause.

An Avicol tablet, placed in the drinking water, will positively save your little chicks from all such diseases. Inside of 48 hours the sick ones will be as lively as chickens. Avicol keeps them healthy and makes them grow and develop.

Mrs. Vannie Thacker, R. F. D. 2, St. Paris, O., writes: "I had 30 chicks and they all died but 22. Then I commenced on Avicol and haven't lost any since. They have grown wonderfully."

It costs nothing to try Avicol. If you don't find that it prevents and promptly cures white diarrhoea, chick cholera and all bowel diseases of poultry, tell us and your money will be refunded by return mail. Avicol is sold by most druggists and poultry remedy dealers, or you can send 50c or 50c today for a package by mail postpaid. Burrell-Dugger Co., 320 Columbia Bldg., Indianapolis, Ind.

AVICOL

stops chicks dying

all history. He served eight years as Congressman from Alabama and while a member of the lower house was preparedness leader of the country. He originated plans for the Council of National Defense and presented before the House the first resolutions leading toward the national prohibition amendment. No admission will be charged to these addresses.

Public Opening.

Thomas A. Llewellyn Post, The American Legion, of Scottdale, will hold a public opening of their new rooms in the Reid building Friday, April 23. The rooms will be open all day and there will be dancing and cards in the evening. Souvenirs for the ladies. 21-31

FAYETTE COUNTY POLAND CHINA CLUB FIRST IN STATE

Others Will Look to This Section for Stock State Man Tells Members at Banquet.

What will be looked upon as a big event in the history of the Fayette County Poland China Pig club was the annual meeting and banquet held in the Hotel Titlow, Uniontown, Saturday. The club was organized last spring and this was the first annual get-together.

The business of the club was taken up prior to the banquet, and it was emphasized that the policy of the club will be to sell only good individuals as breeding stock. At this time each club member gave a short report on the progress of his club work. These reports showed that a majority of the members now own good crops of spring pigs and are rapidly developing in the pure-bred livestock business.

The president of the club, Walter E. Arnold, acted as toastmaster. Besides short toasts by several club members and others, C. G. McBride of State college told about club work in the state and explained that this club had a distinct advantage in that this was the first Poland China organization in the state and that other clubs being organized within the state at the present time would look to this club for their foundation stock.

In addition to the members, all prospective club boys were invited to attend the banquet. In fact each member had pledged himself to bring to the banquet a prospective club member so that by following out a policy of this kind, club work should become a permanent feature in the development of agriculture in Fayette county.

Queen's Train Attacked.

SEVILLE, Spain, April 20.—Bandits attacked a train last night on which Queen Victoria and her brother were traveling from Madrid to Seville in an unsuccessful attempt to carry off the royal plate which the queen was taking with her.

FURTHER DECLINE IN BEEHIVE COKE OUTPUT IN THE U. S.

Shown by Reports Covering Week Ended April 3; Good Friday Observance Cause of Decrease.

The weekly report of the beehive coke production in the United States, prepared by F. G. Tryon of the United States Geological Survey shows a slight decline during the week ended April 3. The total output is estimated from railroad shipments as 493,000 net tons, a decrease when compared with the preceding week of 8,000 tons, or 1.6 per cent. All districts except West Virginia reported a decrease. Production in the Connellsville region, as reported by The Courier, declined from 254,552 to 248,005 tons.

The cause of the decrease is believed to be the observance of Good Friday. At many plants the absence of workers was more important than car shortage in curtailing production.

For the third week in succession the current production was greater than that for the corresponding period a year ago, 493,000 tons during the week of April 3, 1919, as compared with 350,000 tons in 1919. The cumulative output since January 1, 1920, is thus rapidly overtaking the lead of last year. It now amounts to 5,987,000 tons, or only 249,000 tons behind the record of the corresponding period in 1919.

Production by states, compared with the corresponding week of last year was as follows:

	1920	1919
Pennsylvania and Ohio	387,000	269,000
West Virginia	27,000	16,000
Alabama, Tennessee and Georgia	39,000	27,000
Virginia and Kentucky	27,000	20,000
Colorado, Oklahoma and New Mexico	8,000	12,000
Washington and Utah	6,000	6,000
United States Total	493,000	450,000

WEDNESDAY EVENING, APR. 21, 1920.

MAKING GARBAGE COLLECTION A REAL BUSINESS.

The chief of police of the city has an opportunity to show that he can really function as such, lamentable as has been his failure to do so at times. The city council has put squarely up to him the matter of securing the enforcement of the garbage ordinance insofar as relates to protection of the contractor in his rights under the payment of his license fee.

The failure of our garbage collection system has been so frequent, and all due to the disregard of the ordinance, that it is quite time a real effort be made to get action that will mean something. The present contractor has made, rather the best record in taking care of the garbage but he is being subjected to a serious handicap through unauthorized collectors being permitted to do business without the payment of a license fee.

If, as claimed by some, the contractor is overcharging, the ordinance provides a means of redress which it will be the duty of the chief of police to apply just as it is his duty to afford the licensees under the ordinance the protection payment of the fee gives them.

The infection of a little bit of energy into the effort and close attention to the job on part of the chief will make it easy for him to remove all causes for complaints that may arise with respect to garbage collection. Insure an even better system and make it worth while for the contractor to continue in business. The people of the city are entitled to a satisfactory service and are willing to pay the scheduled rates. If there have been violations of them it is the business of the chief to see that they are stopped at once.

This is not so momentous a task that it will seriously interfere with other duties of the chief but it is one he should be required to perform as completely as we understand council intends it shall be performed—that is, make garbage collection a real business, with adequate protection of the rights of the contractor, while compelling both he and the householders to comply with the provisions of the ordinance.

JUDGE GARY'S CHALLENGE

If the producers and sellers of other commodities than steel were to follow the example of the United States Steel Corporation, as its policy with respect to prices has been outlined by Chairman Gary, no more effective check to price boosting could be devised. If the same conscientious regard for their responsibilities were manifested by every manufacturer, wholesaler and retailer as shown by Judge Gary, in the matter of holding prices within reasonable limits, the outcry against profiteering would cease, and there would be way to contentment and the sudden resentment of those who cannot buy against those who will buy at any price would soon be forgotten.

Judge Gary has the vision to see that the "vicious whirl" of price advances, both for commodities and for services, if not soon stopped, will lead to disastrous consequences. He has the courage to do his full part toward changing the course or regarding the mad upward flight of prices. In opposition to many of his own stockholders, who like others of their kind are infected with the itch of gain, he has fearlessly taken the position that a moral obligation rests upon him, the great corporation of which he is the head and upon every person, "to check this carnival of greed and imposition, even at some sacrifice."

In these respects the United States Steel Corporation has taken the most advanced ground in the direction of throwing the weight, influence and power of a great factor in industrial affairs against further advances in prices. Having persistently adhered to the schedule agreed upon by the Industrial Board and the steel manufacturers on March 21, 1919, the corporation has already prevented an unrestrained ascent of steel prices. The determination to continue that policy will have a beneficial effect in a readjustment of all prices which are more or less directly based upon the price for steel. It will tend to keep the price of steel within reasonable bounds to which the coal producers have themselves contributed no little effort to prevent runaway markets. To that extent it will serve as a price balance in related lines.

But the outstanding feature of the policy outlined by Judge Gary is that it constitutes a challenge, which other captains of industry and business cannot refuse to accept. If otherwise they must stand charged with having a more eager desire to profit by existing conditions than they are willing to give recognition to the fact that "the problem of the high cost of living is of paramount importance." In the solution of which an enlightened patriotism demands that every person assist to the limit of their opportunities and powers. Only by such a solution can we hope for a restoration of normal in industrial and business life and the establishment of a healthy, genuine and enduring prosperity. If stability cannot be established by such means, and the orgy of spending and high prices is permitted to continue, we must prepare ourselves to accept the most severe economic depression in our country's history as the means by which a readjustment will be brought about.

Of what use will it be to provide a "substantial concrete foundation" for the re-aping of Crawford avenue if the water and gas companies are permitted to reap it with impunity as they have done on all other streets in the city? Stopping this practice ought to be one of the first considerations in providing for this improvement.

That was a wise decision the Supreme Court of the District of Columbia made when declaring the Federal Trade Commission has no right to demand monthly cost production costs. There are some powers even beyond the province of Congress to convey, however willing it may be to provide soft snaps for an army of clerks and authorize the useless and prodigious expenditure of the people's money. The decision should be promptly followed by a repeal of the law creating this inquisitorial body which in reality is nothing more than an agency for the waste of means and labor.

"What is garbage?" is a much less important question than "Where does the garbage go?"

How fitting is fame! The beautiful driveway along the sea in the city of Flume was called Corso William II before the war. During the Peace Conference the name was changed to Corso Wilson. A few days ago it was changed to Corso Flume.

Once more we are taken into the confidence of the Department of Justice by the announcement of Howard F. Fisher, special assistant to Attorney General Palmer, that the "death blow" is to be dealt to profiteering within the next 30 days. But doubts persist that this is but a figure of speech, as events will very likely prove it to be.

Robbing Peter To Pay Paul

The Echo Review.

The Treasury Department has a savings division which is interested in a campaign to make people thrifty, and issues circulars weekly or oftener to show what progress has been made. The department seems to see encouragement in the fact that there are heavy inquiries for small-denomination Liberty bonds at banks and brokers' offices throughout the country. It says that the demand has reached the Treasury Department, many dealers having exhausted their available supply of "popular" sizes of these securities. To supply the large over-the-counter demand for \$50 and \$100 bonds at present favorable market prices, the Treasury Department has issued instructions to the Federal Reserve banks, which will expedite exchange of bonds of larger denominations for the small units.

It is interesting to know that a part of the public is thus showing evidence of thrift, but there is another part, and a very large part, which is suffering in order to make the "present favorable market prices" for Liberty bonds. These are the people who originally subscribed for the bonds out of patriotism, and have seen them steadily sink lower and lower, until today they are at the lowest price at which a bond of this class has ever been offered. These bonds were brought out on a money market, clamped down to a low rate artificially by the Federal Reserve Board, with patriotism in the country at fever heat. They could never have been floated at par in normal times unless the rate had been much higher or larger exemptions from taxation had existed.

It being now impossible to create artificial conditions, the Treasury is compelled to issue certificates bearing interest at five and five and a half percent. This has caused extremely heavy selling of Liberty bonds, and has carried the quotations of many of them, as has been said, to new low levels, and the old holders are suffering accordingly. A treasury which has been enabled annually to recognize a fundamental economic law as to competition of credit in the general market, should also recognize the justice of placing the old issues upon a decent investment basis. This could be easily done by funding the old issues into a new 100-year bond bearing five per cent interest, for a period, say five or 10 years, after which, in other periods, the rate could be successively reduced. This would do more to encourage thrift by making present holders contented, than all the efforts of the savings division will probably accomplish otherwise.

The banks are still carrying about one-third of the total government borrowings, somewhere around six and a half billions of dollars in Liberty and other government issues, hampering the entire business of the country by reason of this misuse of credit.

It can be imagined that the discouraging effect of depressed price quotations upon the great body of original bondholders, some 15 to 20 millions of people, is very great. These faithful allies of the government have been more or less impatiently waiting for the bonds to return to par, and this consummation now seems further away than ever. The high cost of capital compels the government to pay higher rates, and this will probably continue for a considerable period, during which Liberty bonds will be selling at much below par as the general rate for money dictates.

Congress and the Treasury are neglecting an important duty in not waiting to this situation, which can be easily remedied and which is adding markedly to the serious discontent among a great body of the people whose present earnings, because of the high cost of things, are not sufficient to live upon.

Just Folks

Edgar A. Guest.

THE REAL RICH.

The hand which does no useful toil is very soft and white.
And on its fingers jewels gleam and sparkle day and night.
But better far the weary hand, the calloused hand of cure,
For it has done more lovely things than idle hands can wear.

The painted cheeks of women fair who meet at pleasure's shrine
May never show the trace of tears or trouble's lasting line.
But sweeter far the gentle face which wears the marks of care,
For it has lived more lowliness than pleasure can bestow.

The rippling voice of luxury is pleasant to the ear.
But selfishness is in its speech and it is cold and drear.
But let me hear the words of those who live with honest care,
For they've a knowledge of the world which is denied to kings.

Two hoodlums where all was gayety, watched the idle hands.
I've seen the women fair who wait on fashion's poor commands.
I've heard the empty words which pass in pleasure's brilliant scenes,
But only they are rich on earth who know what duty means.

Let the Insurance Bureau Catch Up.
Savannah News.
If Uncle Sam wants to do something really nice for his former soldiers, why not carry their war risk insurance for a year or so?

No Dry Propaganda Needed There.
Cleveland Plain Dealer.
"Fusspot" Johnson has gone to the Sahara desert for heat and recuperation. Nothing short of the driest spot on earth will suit that man.

Wasted Effort.
Louisville Courier-Journal.
The French Academy has been sitting to determine "what is cheese." A dozen years ago Congress was busy trying to answer the question, "What is whiskey?" Those were strenuous days of wasted effort.

Waiting on the Onions Board.
San Francisco Chronicle.
So far the onion has not been sold, no one whether President Wilson expects to enter the next campaign as a third-term candidate.

Settle Home Questions First.
Buffalo Commercial.
All this rumour about the value of foreign money means little to the man who is trying to find the value of American money.

History—College permanent, \$145;
college provisional, \$125.

English—College permanent, \$145;
college provisional, \$125.

Mathematics—College permanent,
\$145; college provisional, \$125.

Science—College permanent, \$150;
college provisional, \$130.

Commercial—College permanent,
\$135; college provisional, \$120.

Domestic science—College per-
manent, \$145; college provisional,
\$125.

The election of teachers will be held
during the first week in May.

Miss Seaton's Ankle Broken.

Miss Alma Seaton, who was injured
in an automobile accident near Irwin
on Monday evening, was brought to
the home of her parents, Mr. and Mrs.
Thomas Seaton, Cherry avenue. She
is suffering with a fractured ankle.

Fall Breaks Hip.

Over Baker, seven years old, of
Stahistown, fell and broke his hip.
He was brought to the Memorial hos-
pital for treatment.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the
result of Dr. Edwards' determination
not to treat liver and bowel complaints
with calomel. For 17 years he used
these tablets (a vegetable compound
mixed with olive oil) in his private
practice with great success.

They do all the good that calomel
does but have no bad after effects. No
pains, no griping, no injury to the
gums or danger from acid foods—yet
they stimulate the liver and bowels.

Take Dr. Edwards' Olive Tablets
when you feel "heavy" and "sloopy."

Note how they clear clouded brain and
perk up the spirits. 10c and 25c a box.

pains, no griping, no injury to the
gums or danger from acid foods—yet
they stimulate the liver and bowels.

Take Dr. Edwards' Olive Tablets
when you feel "heavy" and "sloopy."

Note how they clear clouded brain and
perk up the spirits. 10c and 25c a box.

Dr. Edwards' Olive Tablets are the
result of Dr. Edwards' determination
not to treat liver and bowel complaints
with calomel. For 17 years he used
these tablets (a vegetable compound
mixed with olive oil) in his private
practice with great success.

They do all the good that calomel
does but have no bad after effects. No
pains, no griping, no injury to the
gums or danger from acid foods—yet
they stimulate the liver and bowels.

Take Dr. Edwards' Olive Tablets
when you feel "heavy" and "sloopy."

Note how they clear clouded brain and
perk up the spirits. 10c and 25c a box.

NUXATED IRON A DRIVING FORCE BEHIND KEEN SUCCESSFUL MEN AND WOMEN

When you think of the successful men and
women you know—people who are doing things
worth while—you will find that they possess
force, vim and energy—
the kind that simply brim
over when the blood is
filled with iron. Nuxated
Iron by enriching the
blood and creating new
red blood cells, strength-
ens the nerves, rebuilds
the weakened tissues and
helps to instill renewed
force and energy into the
whole system. Three
million people use it an-
nually as a tonic, strength
and blood-builder.

MAKE THIS TEST

See how long you can work or how far you can
walk without becoming tired; next take two five-
grain tablets of Nuxated Iron three times per
day after meals for two weeks. Then test your
strength again and see how much you have
gained. Numbers of nervous, run-down people
who were ailing all the while have most aston-
ishingly increased their strength and endurance
simply by taking iron in the proper form.

FOR SALE BY A. A. CLARKE AND LAUGHEY DRUG COMPANY.

Dawson.

DAWSON, April 21.—Mrs. Amanda
McGill of Monessen has gone to
Scottsdale to visit, after a few days'
stay here with friends and relatives.

John Livergood has taken up his
duties at the yard office after being
off duty for the past few weeks on ac-
count of sickness.

Miss Jean Snyder and Lucile Gib-
bon were Connelville visitors Tues-
day.

Beeson Joseph, Pittsburg & Lake
Erie section foreman, who recently
underwent an operation at the Mercy
hospital, Pittsburg, for appendicitis,
returned to his work Tuesday.

James Gibson was transacting
business in Connelville Monday.

Mrs. John Somers is making some
repairs on her property on Laughlin
street.

A number of local fans will attend
the baseball game at Pittsburg on
Thursday.

A number of houses have been
robbed here the past week, but so far
as learned they did not get away with
much loot.

A. C. Brown visited at the home of
Jesse Snyder near Connelville Sun-
day. Jesse was formerly of Daw-
son but is now located on a farm.

He has much registered stock and
says he will have quite an exhibit at
the Dawson fair this fall.

PIRATES OPEN SEASON AT HOME ON THURSDAY

With the baseball situation at a standstill locally, the fans are turning their attention to the opening game at Forbes Field tomorrow afternoon when the Pirates open their home schedule with St. Louis. That is providing it does not rain. The scene at Pittsburgh is bound to be one that will long be remembered by the rooters for no less a personage than John A. Heydler, president of the National League, will be present to give the Bucs and Cards a royal send-off in lifting the baseball lid in the city of smoke.

Hans Wagner is slated to toss the first ball to Manager Gibson to open the game. That Connellsville will be well represented is expressing it mildly. Plans have been made for some time past for parties to make the trip. The Pittsburghers are anxiously awaiting the appearance of Walter Schmidt, the star catcher, who is on his way from the coast. His delay in arriving is attributed to the unsettled condition of the railways. With the opening game in the big town there is no doubt that baseball locally will be looked upon more favorably.

It is almost impossible to get the most rapid fan interested in the national pastime with the present weather. The players are the ones, experiencing the feeling of unrest. They cannot afford to toss a ball under such conditions, as their throwing arms would in all probability go back on them for the rest of the season. They are all praying for the appearance of "Old Sol."

BASEBALL CHIRPS.

The real umpire—Rain.
The missing link, your seat, check.
A walk sometimes develops into a run.

Famous doubles: Thunder and lightning.

Unpopular pastimes: Raising baseball funds.

The Princeton Tigers have a pitcher named Lyons.

Chris Wagner will supply the Independents with a mascot.

A few more live wire directors is what the club really needs.

The Independents' uniforms and playing equipment are due to arrive today.

Tom Jones, the nifty catcher, is the most sought after player in this neck of the woods.

When Hal Chase came from the California ball fields, he only cost the New York Americans \$750.

To the first voluntary subscriber to the baseball fund a prize of the first ball played will be given.

We would like to know what has become of the West Penn. Sligo Mill and Capstan Glass baseball teams.

BASEBALL TOO ROUGH

Because of numerous broken fingers among France's coming army officers the general staff has forbidden playing of baseball at the military camps of St. Cyr, France's West Point.

The general staff order declares baseball is too rough for French youths, not having been trained in the game from boyhood, invariably break their fingers in trying to catch the ball. The game has become tremendously popular throughout France since it was introduced by American soldiers.

the results lining by lining.

In the game between Detroit and Cleveland of the American league yesterday a total of 25 runs was scored. Cleveland gathering 15. This game was the worst batted one this season in the big leagues. Both teams used three pitchers.

TRACK AND FIELD.

The third annual West Virginia high school track and field meet to be held at Morgantown on Friday and Saturday, May 21 and 22, under the auspices of the state university has grown in the short space of two years

to be one of the most successful meets of its kind conducted in the United States. The entries for the meet do not close until May 11. Forty-seven schools will participate. Twenty other schools are regarded as being on the "doubtful" list, so that it is felt that a minimum of 50 schools will take part.

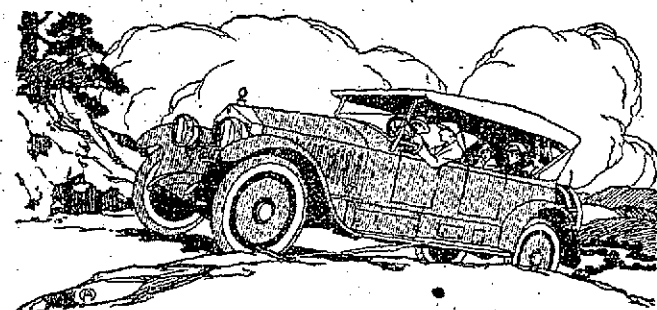

The track events on the program will be the 100, 220 and 440 yard dashes, half mile, mile and two mile runs, 120 high and 220 low hurdles, and the mile relay. The field events will be the pole vault, running high and broad jump, discus, hammer and javelin throw and shot put. The trials will be held on Friday and all the finals on Saturday.

BOXING.
Names are nominal. Zulu Kid (Joseph Danelli).

It's a long time between announcements. "In this corner, Billy Carter."

Our old cronie, Norman Shelby alias Kid McCoy, will up and do it again. The old bird will take unto himself another wife. This will be the seventh time he will face the "Sky Pilot" for the matrimonial leap.

Arthur Stigall, the Cumberland heavy-weight "light-weight," takes exception to our recent article about him losing a decision to Alex Gibbons at Cumberland recently. Stigall never

Yes, Sir—There's Something in a Name

The meaning of gasoline grows when you put Atlantic in front of the word. It changes so it spells p-o-w-e-r and e-c-o-n-o-m-y, enthusiasm and gumption under the hood. None of this crack fuel loaf. It all works, and keeps on doing it. It vaporizes the instant the air strikes it in the carburetor and every atom burns. That's why it doesn't get into cylinders and crank-case or foul the vitals of your engine.

You don't need to concern yourself about the carburetor once it's set for the season. Let it alone and just let Atlantic work for you. Atlantic's range compensates for changes of climate, weather and altitude. Keep going—that's all you need care about.

Now is the time to use Atlantic quality, for good gasoline isn't to be had at every roadside. Make sure your tank is filled with virile energy drawn from the Red Pump. Auto-engines are designed to burn gasoline. And nothing will really, permanently take its place. So watch for the sign which tells you

Tires for the Smaller Cars—Built With Goodyear Methods

In using its immense resources and inventive skill to build the highest relative value possible into tires, this company has never made its work more effective than in Goodyear Tires for the smaller cars.

These have the full advantages of Goodyear competence and care, plus the modern facilities of the factory we are devoting to the world's largest production of 30x3, 30x3½, and 31x4-inch sizes.

The sum of this extraordinary effort is available to you, as the owner of a Ford, Chevrolet, Dort, Maxwell, or other car using these sizes, at the nearest Goodyear Service Station Dealer's place of business.

Go to this Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He is ready to supply you.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$4.50

GOODYEAR

uttered a chirp about the weight question though.

The New York Assembly is now considering the Gillette boxing bill. Needless to say it is being advocated as a safety measure.

New rules to govern boxing are being drawn in nearly every boxing center for the betterment of the game. This will mean nothing in the young life of Connellsville. The only rules that would interest the local sports would be those of African Golf.

Tonight's boxing card—Tommy Ryan vs. Chalky Winkler, and Jimmy Cimballi vs. Joe Laurie, 10 rounds each. McKeesport: Johnny Welsh vs. Tommy Stevenson, 10 rounds, Beechview: Johnny Kilbane vs. Alvie Miller, 10 rounds, and Otto Yacknow vs. Alex Hurt, 10 rounds. Lorain, O.: Sam Langford vs. Harry Willis, 15 rounds. Denver: Jimmy Wilde vs. Johnny Murray, 8 rounds; Camden, N. J. Young Chaney vs. Bobby Josephs, 12 rounds. Boston.

PILES

ITCHING, PROTRUDING INTERNAL.

Relief in Five Minutes—Or Money Back.

Follow these directions for quick results:

Cover the parts with a hot steaming towel, as hot as you can stand it—then apply Geero Wormwood Balm (as directed on circular) and you'll be surprised at the quick relief this soothing, cooling treatment brings.

No pain, no throb, no itch, no sting. Many persons have voluntarily testified to the prompt and lasting comfort that Geero Wormwood Balm brought to them—but we don't ask you to believe them—try it yourself. Any good druggist can supply you and will cheerfully refund your money if you are not satisfied. Get the genuine "Geero" Wormwood Balm. A. A. Clark, J. C. Moore, C. R. Hetzel—Adv.

Chiopyle.

CHIOPYLE, April 20—H. D. Lyons, who has been on the sick list for the past week, is able to be about again.

Mr. and Mrs. Glendinning and children returned to their home at Pittsburg yesterday.

Misses Eunice and Ruth Rafferty spent Sunday evening calling on Connellsville relatives.

Today the public school here completed the current term. Prof. Ar-

old Show, Miss Helen Robinson and Mrs. Mary Cunningham were the instructors. Mrs. Cunningham will continue with her pupils two weeks longer to make up for days lost.

Alex Johnson returned Monday to his work at Glenwood.

G. Z. Hershberger returned to Mount Pleasant yesterday.

Mrs. N. Burnworth spent Monday shopping in Connellsville.

Mr. Jennings of Connellsville spent

Monday here transacting business. Margaret Show and Evangelina Jackson spent Monday in Connellsville.

R. C. Holt was a recent Pittsburgh business visitor.

S. A. ACCOUNTS FOR FUNDS COLLECTED IN LAST CAMPAIGN

Colonel William Evans Makes Public Financial Statement for "O K" Province.

More than a million and a half dollars will have been spent by the Salvation Army in the "O K" Province during the twelve months ending May 31, according to the official statement just made by Provincial Officer Colonel William Evans.

Of this amount \$1,298,750.00 had been spent on January 31 last and there remained a reserve of \$223,034.00 to cover the amount required between then and the end of May, making the grand total \$1,521,784.00.

The greatest demand made upon the funds available for this province, which includes Ohio, Western Pennsylvania, Kentucky, West Virginia and Tennessee, was in the liquidation of mortgages on the property of the Army, to which \$106,785.18 was devoted, and in the purchase and erection of new buildings to accommodate the greatly increased work of the organization here. This cost \$568,697.59.

The debt which presented such a handicap to the work of the Army in this, as well as in other provinces, was the natural result of a long period of sacrifice, open-handed charity and insufficient support. For years it has been the custom throughout the province to send the needy to the Salvation Army where they always have received prompt and cheerful help; but it was too often overlooked that some return was absolutely essential if the institution was to maintain its feet.

The necessary support was formerly not forthcoming in the offerings cast into the tambourine jangled in meetings and the Army has until now found it imperative to mortgage its property in order to secure money for the carrying on of the work. This old order changed for the better last year when the new plan of making a single annual Home Service Appeal to the whole country was adopted and when for the first time in its history, the Army was enabled to liquidate any considerable amount of its debts and to pay the full salary of its officers, scanty though that is.

Support of corps activities for the eight months ending with January last \$138,046.00 while there remained a reserve of \$118,521.00 to carry through May. This money covers the rental of buildings in places where the Army does not own its establishments, lighting, heating and maintenance of these places as well as those actually owned by the organization, covers the salaries paid the workers in this province and includes traveling expenses, stationery, telephones and printing.

Maintenance of provincial and divisional headquarters activities cost \$375,550.00 while \$105,733.00 still remains unexpended and in reserve to maintain the work for the four remaining months.

These provincial and divisional headquarters exist for the purpose of supervising the work of the corps and the extension and development of the Salvation Army's undertakings generally within their territory. This expenditure therefore represents the rentals and maintenance of buildings used for officers and headquarters salaries and the expense of operating fresh air camps and relief work.

This province's share, \$22,627, went to hearing the expense of national headquarters, while the national pension fund which exists to provide for officers who have grown old in the service entailed the deduction of \$50,000 more from the grand total of the provincial budget. The women's work for the Province took \$3,978.

The 1919 balance sheet for the Province shows the following:

	Expended to Reserve to January 31	May 31
For the support of Corps Activities	\$138,046.35	\$118,521.00
Maintenance of Provincial and Divisional Headquarters	375,550.16	105,733.45
Maintenance National Headquarters	22,627.80	
Women's Social	39,973.00	
Pension Fund	50,000.00	
Mortgages	100,755.18	
Properties	586,697.59	

Following a careful preliminary survey of needs and requirements the 1920 budget for this province has been set at \$3,000,000. This money will be raised in the May Appeal and spent here during the next 12 months for the welfare purposes definitely explained in the foregoing paragraphs.

The Salvation Army makes a public appeal upon the principle that money, a medium of exchange, commands the material things which constitute relief for the worthy poor, the homeless and needy, the fallen and the stricken; upon the principle that the officers and soldiers of the Army have to desire to acquire or accumulate for their personal emolument any stores of money or chattels, but instead have dedicated their lives to the work of relieving others; upon the principles that while its members must live decently, and are therefore entitled to shelter and food, they seek no reward in this life beyond the respect and appreciation of their fellow men and women, and that they are especially fitted, in consequence, both in spirit and experience, to handle money judiciously and with efficiency.

The Difference.
"I understood the college professor you were talking of had a give up his position, and is now a common laborer in a shipyard. What a fall!"
"Fall nothing! Now he rides in his automobile, and his family has steak for dinner."

An Acquaintance.
"I noticed you waved your hand to that traffic policeman."
"Yes," said the motorist.
"Old friend of yours?"
"In a way. He's carried me to court a few times."

Hot Treatment for Seed Potatoes

Official Crop Improvement Service.
ABOUT the only objection which farmers have to the formaldehyde treatment of potatoes for scab is that it takes two hours or so to complete the treatment.

Formaldehyde is more active hot than cold. It penetrates faster and kills the spores more rapidly. So every potato grower should treat his seed and thereby increase his yield and profit.

The Solution.
Formaldehyde (40 per cent solution), two pints; water, 30 gallons. Dip two minutes at 118 to 122 degrees F. Cover with the wet sacks for 30 minutes and then allow to dry.

The work, of course, can be slowly done in an ordinary wash boiler. But another good scheme is to take

an ordinary ash can which will not leak and make a stove of it to be fed from the top and smoke pipe extended as in illustration.

Be careful. It should be remembered that a dose and that water must not be allowed to get too hot or it will injure or delay germination of the tubers. Too cold will not control the disease. Although any thermometer may be used, the best type is the floating thermometer, such as is used in creameries. Make up the solution according to the directions, but keep a reserve supply, so that you can maintain the initial strength or lower the temperature by adding, should it go above 122 degrees.

The potatoes may be handled in loose sacks or in crates. The Iowa state college at Ames will furnish a booklet.

ONE BASEBALL GAME ENDS WITH TRAGEDY

Soldier-Players Used "Dud" Shell for Home Plate.

As Batter Slipped Shell With His Bat Preparatory to Making Hit, He Struck Nose-Cap, Causing Terrific Explosion.

Here's a story of one baseball game that ended with tragedy.

In the spring of 1917, when all America was interested in the results of the big leagues and perhaps more so in the fact that we were at war with the Roaches, two Canadian infantry teams from the distinguished Third Canadian division, lined up for a friendly game at a place called Neville St. Vaast.

The game had progressed as the usual game does with all the cat calls etc., handed to the pitcher and the umpire.

The fifth inning was winding the game up until the fifth inning, when the Mounted Rifle battalion, who were opposing them, suddenly gave a spurt of speed and tied the score.

End of the fifth inning, score tied—third battalion at bat and two men on base.

Corp. Roberts is called to bat.

He is an old-timer, a boy who has played ball in the States long before he took up the profession of soldiering.

Everyone is watching both the batter and the pitcher. The pitcher winds himself up into a horrible knot, straightens out and throws the ball.

Wham—z—zzz.

A terrible explosion sends the air, smoke and the acrid smell of high-explosive fill the nostrils.

When the smoke cleared away a heart-rending sight greeted the eyes of the fans.

The home plate had disappeared and with it eight men who were grouped around the batter, hoping that he would make a hit and bring the men on base home.

Fourteen wounded and eight dead the sad total of the game.

Old Fritz would have smiled if he had known about it. Perhaps he did, who knows?

Upon investigation it developed that the men were using a dud eight inch German shell for the home plate, and as the batter slipped the plate with his bat preparatory to making a hit he struck the nose-cap of the dud and exploded the shell with its tragic results.

But, of course, that sort of thing was an every-day occurrence and the next day, after the boys had attended the military funeral of their dead comrades, the game was in full swing again.

C'est la guerre.

GOSSIP AMONG SPORTS

Benny Leonard and Johnny Dundee have boxed eight times.

America will not send a polo team to the Olympic games next summer.

Miami is to have another eighteen-hole golf course, making three in all.

The western open golf championship

will be held just ahead of the national open meet.

W. L. Rayward has been coaching University of Oregon athletic squads sixteen years.

Lula P. 2-31-1-2, the only record performer sired by Lu Princeton, has just been exported to Europe.

Jack Dempsey was indicted for slacking just as he was preparing to go over and fight in France.

The draft records indicate that while Jack Dempsey is unquestionably a fighter, he is highly specialized.

Paul Kuhn has purchased a 600-acre farm near Terre Haute to be utilized to replace the present Forest park farm.

Harvard will meet Princeton and the University of Pennsylvania in a triangular regatta on the Charles river on May 1.

E. E. Sizemore '21, has been elected captain of the varsity football eleven for next fall at the Alabama Polytechnic Institute.

Jeck Jackson, the crack Los Angeles buck broke swimmer, has transferred his residence to San Francisco and will represent the Olympic club hereafter.

James T. Laird, captain-elect of the Colgate football team, has been declared a professional and debarred from participating in Colgate university athletics.

New England Amateur Rowing association recently re-elected Dr. George Magrath as president for the twentieth term and John J. Corrigan, secretary for the thirtieth consecutive year.

Yale's big indoor cage where athletes practice is large enough to allow infield baseball practice, in fact practice games as well as general batting, pitching and base running drill.

Increased Use of Coffee.
Whether prohibition has or has not increased the use of coffee, it is at least a fact that the people of the United States are now consuming more coffee than has been their custom and are paying far greater sums for it than ever before. A statement by the National City Bank of New York, shows that the quantity of coffee brought into the United States in the calendar year 1919 will probably be greater than ever before, notwithstanding the fact that the cost is about three times as much a pound as formerly. The imports for the ten months ending with October approximate 1,140,000,000 pounds, against 940,000,000 pounds in the same months of last year and 1,122,000,000 pounds in the corresponding months of 1917, the former high record years in importation.

Reorganizing Chilean Army.
Announcement of plans for a further reorganization of the Chilean army has recently been made by the minister of war. The plans are to operate along three distinct lines. First, an organization of a number of civilian bodies is to be made for the purpose of stimulating interest in and development of military aerobics. Second an attempt is to be made to increase the standing army to 25,000. Third, a number of military railways are to be built which are to have strategic character. To aid in bringing about the latter a number of Japanese military railroad authorities have been retained.

Why the Cleveland Six is Multiplying Its Friends

The Cleveland Six is making new friends every day, thousands of them every month; because it brings them so much more than they had even dared to expect,—so much more of the pleasure of driving, and the ease of driving and of the comfort of riding.

The motor of the Cleveland Six—designed by the Cleveland company's own engineers, tested in road work and engineering shops for three years before being offered to the public, and now built in the company's own great factory—is something new to countless thousands of motorists who prefer the light six type of car.

They have never driven behind just such a motor as this. The wonders of its pick-up and flexibility are

exceptional and the brakes sure. Low underslung spring construction and soft restful cushions gave the Cleveland unusual qualities of comfort.

Since first sent out on its journey into the big world of motordom, last July, the Cleveland Six has made friends, and multiplied them. Thousands of owners know what a good car it is and they tell their friends.

MISSIONARIES GET SALARY INCREASE TO MEET H. C. L.

New World Movement Will
Provide Funds to Relieve
Distress of Workers in For-
eign Fields

In Egypt and India, the lands of few loaves and simple living, missionaries have been hard hit by the increased cost of living and the consequent distress of the workers. The Women's General Missionary Society of the United Presbyterian Church that in increase of one third will be granted in the salaries of all home and foreign missionaries will be welcomed by the hundreds of workers of this denomination in Africa and Asia as well as America.

The high cost of living has hit the missionary in common with every one else and workers in the home and foreign fields have protested to headquarters that they cannot live on the \$500 yearly that each one now receives. Missionaries in addition to their salary get living quarters.

The increase will affect 105 workers in India, Egypt and the Sudan as

MRS. J. D. SANDS

well as the home missionaries and those in the work for the freedmen's board.

The summary of the foreign budget of the women's missionary society for the five year program planned by the New World Movement calls for the expenditure of \$1,054,800 to salaries alone for the mission workers. It is planned that \$210,000 will be spent for increases in salaries of 10% women missionaries during the five year period and \$444,800 will be spent for salaries for 202 additional women workers that the United Presbyterian Church hopes soon to be able to pay into the home and foreign mission fields.

CHURCH WILL BUILD COMMUNITY CENTERS IN ASIA AND AFRICA

The community center movement has spread from America to the land of the pyramids. Fifteen community centers will be erected in as many towns in Egypt by the Women's General Missionary Society of the United Presbyterian Church, says Mrs. J. D. Sands of Pittsburgh, Pa., president of the society. Although all building materials are unusually high now in Egypt the organization plans to erect the community centers at a cost of not more than \$20,000 each.

The community center has been found a most necessary part of the modern mission and efficient mission. The fifteen buildings planned will be erected during the next five years, says Mrs. Sands. This work will be a part of the New World Movement program for enlarging the scope of the mission work abroad.

There is one community house at present, situated at Becha, Egypt, and all the new missionaries who sail for Egypt last fall and early this spring will remain at Becha for one year while they are studying the language.

The missionary society Mrs. Sands says, expects to recruit a large number of native women who will be trained in mission work and these will live at the various community houses while they are receiving their training. It is expected that the largest training school will be located at Cairo and smaller centers will be placed in other cities and towns.

In addition to the \$300,000 to be spent for building these centers the women of the organization plan to build five boarding schools for girls in Egypt at a total cost of \$225,000 and one sanitarium to cost \$35,500. Altogether the budget for extended work in Egypt during the next five years calls for an expenditure of \$325,000.

The sum will be apportioned from the \$1,715,000 fund of the United Presbyterian Church which raises during its financial campaign which will run simultaneously with the Interchurch World Movement campaign from April 25 to May 2.

"EXECUTED" HIS DEAD BODY

Stern Decree of Justice Carried Out on
Corpse of Ancient Dalmatian
Archbishop

Dalmatia has made rapid strides in science and literature, the story of her culture however being one of personal achievement rather than public advancement. Zarn its largest city for example had no printing press until 1798 while Venetian Dalmatia had only one public school in the eighteenth century.

Roger Joseph Boscovitch, one famous son of Dalmatia, was esteemed by scientists for his work setting forth a new atomic theory but more popularly known because of the adoption of his plan for assuring the uprightness of the dome of St. Peter's at Rome when a crack was discovered in it. He wrote verse voluminously but not as successfully as he wrote his numerous scientific treatises.

Marco Antonio de Dominis, another Dalmatian of public note, mingled theology and natural philosophy with serious consequences to himself. He set forth the first correct explanation of the rainbow but his theological career was less fruitful. As archbishop of Spalato he attacked his superiors in his writings, fled to England returned to Rome then did penance by writing a book refuting his heretical works. He was tried, but died before the trial ended. The trial went on and he was sentenced to be dragged through the streets of Rome and burned publicly. His body was removed from his coffin and the sentence executed.

SHOWING VALUE OF "FRONT"

Impecunious Author Wise in Expenditure That Less Fright-Sighted Friend Objected To.

There is a young author who has arrived and therefore has only when he wishes a new suit or a large steak or a set of automobile tires to sit down at his typewriter and dash off a few careless lines and eager editors do the rest. Once upon a time, however, and unlike the fairy stories that doesn't mean long long ago—this worthy young man's assets were so near the vanishing point that his numerous creditors became uneasy and threatened a total discontinuance of supplies. Something had to be done and that quickly. The author did something—he took a famous financier with whom he happened to be acquainted to lunch at the most expensive and conspicuous restaurant in town. When it was over he walked home for lack of another nickel.

You are not as bright as you might be my boy he suddenly explained to a protesting friend as he cheerfully borrowed a quarter. Several of my largest creditors always lunch at that place and I knew they would recognize the man I was with. Why that lunch is good for at least 60 days extension on my accounts!

Showing Rattlesnake's Age

Another ancient belief is shattered by science. The number of rattles a rattlesnake has is determined not by his age but by the number of times he sheds his skin. The decision given out by the curator in charge of the reptile in the New York zoo. A baby rattlesnake is born with only a button but soon afterward he sheds his skin and has a rattle. Every time he sheds his skin he gains another and he usually does this three times a year at though seasonal or food conditions may vary this.

The rattle is rather a delicate organ, writes the curator. "The snake wears out the older rings dragging them around over rough, rocky ground. A rattle seldom attains a length of more than 10 or 11 rings as when that number has been acquired the vibration at the tip when the organ is used is so pronounced that additional segments are soon worn broken or lost."

Rheumatism

A Home Cure Given By One Who Had It.

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered and only those who have it know for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent simply mail your name and address, as I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your rheumatism, you may send the price of it, one dollar, but understand I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

Mark H. Jackson, No. 5557 Gur

HEALTH SCHOOL

Pennsylvania State Department
of Health.

Questions.

1. Is the fly simply a nuisance, or is it a serious health menace?
2. Is it possible for a community to get rid of flies?
3. What is the most important thing to do in accomplishing this?

FLIES.

The whole town was there, for the newspapers had been talking about it for days. The President of the Town Council, rapping for order, said, "Ladies and Gentlemen, this summer there are to be no flies in L—ville. It was done in huge army cantonnements. It can be done here, and you are going to do it and if you do—we will have fewer baby funerals. Major Simpson has learned how, in the army, and he is going to tell us."

Doctor Simpson quieted the storm of applause which greeted him, and told how the fly breeds in filth and carries disease germs such as those of typhoid fever, tuberculosis and diphtheria, upon its wings, body and hairy legs. How it sucks its food in the foulest places and vomits this corruption upon sugar or upon the nipple of the baby's nursing bottle, for the house fly has no teeth and vomiting and spitting are its method of dissolving sweets.

He told of the death rate of infants which increases with the advance of the fly season and lessens with its decline.

"Flies," he continued, "mean always filth of the most loathsome character. Their presence in numbers is a sure sign of gross indifference to public health. We intend to abolish this evil in L—ville, make up your minds to it and it surely will be done."

"First, we must get rid of the breeding places. Ninety per cent of flies breed in stable manure; it requiring at least seven days to develop from the egg. During the fly season manure must be removed twice a week. An ordinance requiring this will be needed unless we have one."

"We have such an ordinance," said the chairman, "but it has never been enforced. This remark caused a ripple of laughter among the audience but Dr. Simpson continued:

"A solution of borax one pound to three gallons of water poured on the ground after the manure is taken away will destroy the eggs and maggots. Pig pens should not be allowed in the town limits, till they can be removed they should be subject to the same regulations. Garbage must be regularly collected every two days and must be kept in covered metal buckets which must be cleaned with lye every week."

"There must not be a single toilet in the town which is not screened from flies if there is no ordinance covering this, one must be passed. Candy and food exposed for sale must be protected by netting. Refuse from markets, fish houses and meat shops must be removed promptly. Surface kitchen drainage must not be allowed. The fly usually stays near his breeding place, traveling not over a mile unless windblown."

"To accomplish all this we need a paid inspector and he must have the support and help of the Boy Scouts, Girl Scouts, school children and of every citizen."

The doctor sat down, applauded to no more than that degree which politeness required.

The chairman then arose and said: "This town has 5000 inhabitants. Our funds are low and our taxes are high. We believe in all the Mayor has said, but I, as a member of the council, do not see how we can afford a paid inspector."

Mrs. Alexander, chairman of the Red Cross took the floor and said that she was not willing to have L—ville continue to suffer from a curse of flies if it could be prevented and that the expense of an inspector would not be great. The fly season lasts about 20 weeks. An inspector especially if helped by the citizens could cover a town of 5000 by working two days a week and at \$5.00 a day the whole expense need not exceed \$150. His inspections would, of course, include stables, outside toilets, surface sewage, garbage and exposed food. If the council could not pay that amount, she believed her organization could and would. The applause was enthusiastic as she sat down.

Professor George of the high school asked Dr. Simpson in what way the schools could be of service.

In many ways, replied the Doctor. They can put up posters, circulate literature, make fly traps and use swatters. The Department of Health will furnish literature and plans for fly traps. The Boy Scouts and Girl Scouts can district the town and appoint patrols who will help the inspector.

"Where will the swatters come from?" cried some one.

Business men will furnish them free. There is no better advertising medium than the handle of a fly swatter.

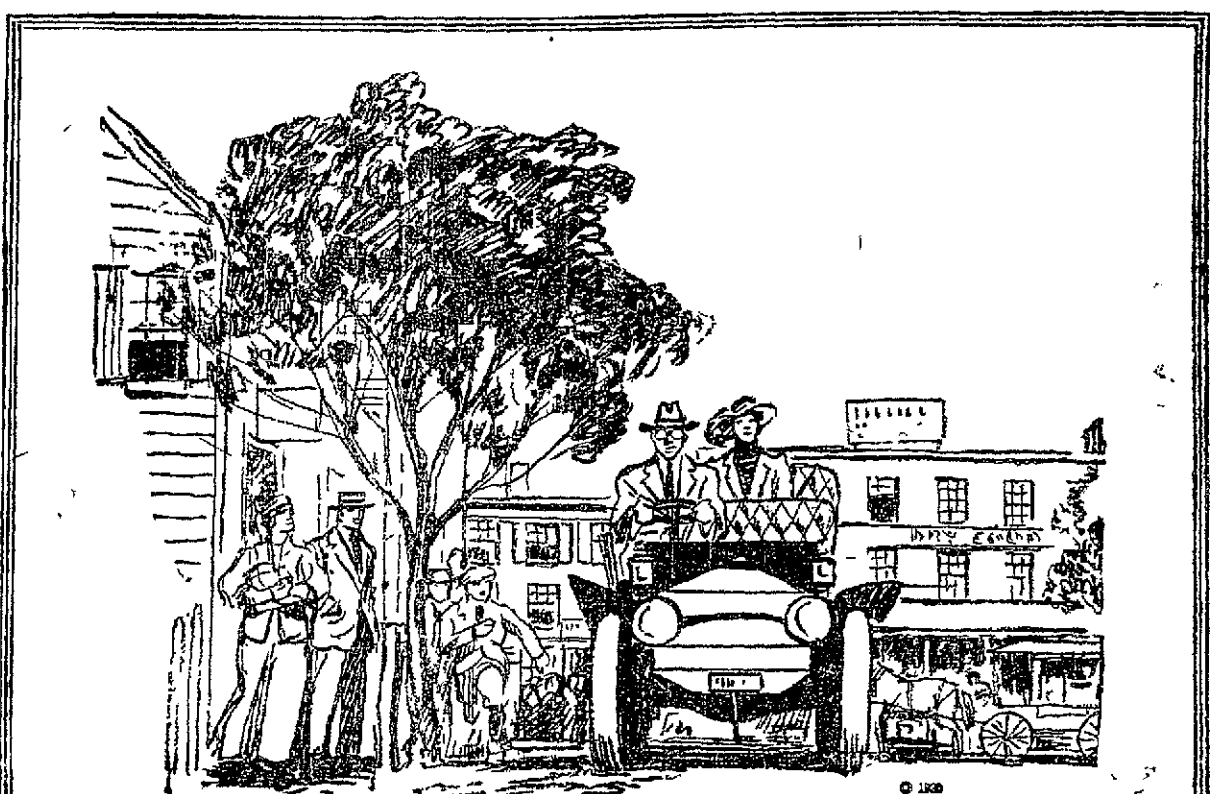

Is a fly a purer any good, asked a druggist. First rate, replied the Doctor. The kind that hangs from the ceiling is better than the kind that flies flat.

A motion was made and enthusiastically carried to the effect that a Fly Eradication Committee be appointed to work locally and in co-operation with the State Department of Health in its State Wide Campaign for the elimination of the house fly.

NOT MUCH DIFFERENCE

"What's the difference between a pessimist and an optimist?"

That's easy—a pessimist acts the way he feels, while an optimist acts the way he thinks he ought to feel."

Remember when the first automobile came to town

TODAY there are more than 7,000,000 of them in the country. Pretty soon nearly everybody in this section will be traveling around in his own automobile.

The first thing a man wants to know nowadays, when he starts out to buy a car, is how much it is going to cost him to keep it running.

It's all very well to take some dealer's word about a tire—if you know who he is and his object in selling it to you.

Our object in selling U. S. Tires is to have you come back for more—and be glad

that we sold them to you.

U. S. Tires have a record behind them.

They are built by the people who perfected the first straight side automobile tire, who produced the first pneumatic truck tire.

Two of the greatest contributions to tire and motor economy ever made.

As representatives of the oldest and largest rubber concern in the world, we have a reputation to live up to. We can't afford to substitute "just as good" tires for tires of standard quality.

OUTFIELDER LAMAR ACTS AS FATHER'S STENOGRAPHER DURING HIS "OFF TIME"

This photograph shows Bill (Jack) Lamar, former Red Sox outfielder on a hunting trip. Bill is his father's stenographer during "off time." His father is solicitor general of the post office department of the United States.

Young Lamar is the only boy in the Lamar family for two generations who has not made the law his profession. His grandfather was chief justice of the United States under Cleveland and his great grandfather was chief justice of the supreme court of Georgia. Bill intends to start the study of law next fall.

Young Lamar was recently released to the Louisville club of the American association in exchange for Tim Hendryx, for whom the Louisville club received various offers.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading
Druggist of Covington, Ky., Who Has Made
Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arzene mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished.

It's really no joke for people who don't know about this simple remedy to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three quarters of an ounce of Mentholized Arzene—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and sniff or spray some up the nostrils as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

Senrec is the dentrifice that contains the properties recommended as ideal by United States Army Dental Surgeons.

BOB JONES IN INTERCOLLEGIATE GAMES

Bobby Jones, the star Atlanta golfer, will be seen in intercollegiate competition at the Nassau links next summer. He will represent Georgia Tech. in the championship tourney which will be staged from June 22 to June 26. A. Lucien Walker of Columbia, the present title holder, will defend his laurels that week. Last year he was very successful on the links and a clash between him and the fiery Southerner will be something well worth while.

Walker is one of the longest drivers seen in many days in the amateur ranks and he is deadly in his steadiness. Unlike Bobby he is not one of those temperamental but brilliant players. He never loses his poise and a combat between the two should be a treat.

FANS WATCH RED BALL

Joe Tinker will let the Columbus fans know when there is a ball game going on at the Tink's park in a novel way. A wire will be strung across a main corner in the downtown section and a huge red ball will be hung in the middle of it on days when games are played.

PICKING BALL STARS MOST TICKLISH TASK

Critic Who Selects but Five in Baseball Brings Storm.

Those Opposed to His Selection Object to Limiting Number to Five—Others Should Have Been Included in List.

An eastern critic has stirred up a lot of trouble for himself by proclaiming the five stars of the baseball world of the past 20 years.

He names as the members of the headliner quintet, Hans Wagner, Larry Lejole, Christy Mathewson, Ty Cobb and Babe Ruth.

Now the arguments advanced by those who are opposed to his selections, are not so much against the five men he picked as they are against his limiting his selections to these five. No one will argue that he hasn't picked five of the real stars of the national pastime, but when he stops at this quintet he has lots of opposition.

There are any number of high-class ball tossers of the last 20 years whose admirers believe should be included in the list of greats. Of the present day squad there are Walter Johnson, Grover Alexander, Ray Schalk, Tris Speaker, Eddie Collins, and a number of others who at present or in their prime ranked with the best in the game.

In addition to those one can recall off hand such headliners of the diamond as Rube Wadell, Ed Walsh, Miner Brown, Johnny Kling, Billy Sullivan, Sam Crawford, Mike Donlin, Johnny Evers and others, all of whom ranked at the very top of the heap when they were in their hey-day.

Picking five men as the real stars of the many who have twinkled in 20 years is some task.

JAPANESE TRIP ONLY RUMOR

University of Chicago Baseball Players Not Invited, Says Assistant Coach Page.

Pat Page, assistant to Coach Stagg, has denied the report of a contemplated invasion of the orient by the University of Chicago baseball team next summer. Page said the Maroons have not been invited by the Japanese universities.

LEADER OF WHITE SOX TEAM

Kid Gleason Made Good Last Year by Winning Championship of American League.

A year ago William (Kid) Gleason was made manager of the Chicago American league team, succeeding Clarence Rowland. He made good by winning the championship of his league. But he failed to land the world's championship. Gleason is an old figure on the diamond. Over thirty years ago he entered the big league with hardly one year's experience in the minors. He began as a pitcher for the Philadelphia team in 1888, and

Manager Gleason.

for eight years, nearly the lifetime of a ball player, continued to pitch. In 1895, while a member of the Baltimore team, he became a second baseman and one of the best in the country. At this position he also spent a decade. It was fitting that at his first attempt at managing a team he has been a success. He is surely one grand little figure in baseball.

PUZZLING TO VARDON

A story is told of how Harry Vardon and Sandy Herd took part in an exhibition golf match in Scotland. During the round, on the tee of a blind hole, Vardon asked his caddy for line of direction, and was told to "play on the stalk." Not understanding, Vardon appealed to Herd, who replied:

"He means the lum, you."

The many-time English champion was more mystified than ever until a spectator explained that both "stalk" and "lum" were Scotch for chimney, and that the line to the hole was on the tall chimney that showed on the horizon.

BASEBALL STORIES

Pat Morgan will give a tryout to Walters, a Buffalo southpaw.

Harry Frazee, owner of the Boston Red Sox, denies a report that he is to sell the club.

George Magoon, old-time second baseman, has been made city clerk at Rochester, N. H.

Louis H. Burnett of Tacoma is the president of Bob Brown's new Pacific International league.

The Milwaukee club has traded pitcher Russner to the Regina club for pitcher George Cline.

B. W. Browning is a new catching candidate with the Boston Red Sox. He hails from Waco, Tex.

The St. Louis Cardinals released first baseman Fritz Molitor to Sacramento of the Coast league.

Joe Snodden, veteran catcher, will again be with the St. Louis Cardinals this year as coach and scout.

Now that municipal playgrounds are to have boys-sized diamonds, will they employ bantams as ground keepers?

A late purchase by the Kansas City club is Roy Grover, from Washington. He will be used at second base.

The University of Havana baseball team will play in this country this spring meeting various college nines.

Larry Gilbert, slugging outfielder of the New Orleans club, declines to accept a major league berth offered to him.

Paddy Baumann is going to come back to organized ball. He has signed with Bill Donovan's Jersey City Internationals.

King Johnson, who balked on the terms offered him by Charlie Mack, has been given his unconditional release by the tall leader.

Manager Kid Gleason of the White Sox thinks he will get good work out of pitcher Winn Noyes this season, in spite of the pitcher's previous failures with other clubs.

Smillo Palmero, the Cuban, southpaw, who was a member of the Giants for a long time, is to pitch for the Omaha club of the Western league in the coming campaign.

Club owners of the Pacific Coast league have decided to admit boys free to their games two days each week and to admit the youngsters for a nominal charge on other days.

George Lees, utility catcher, has been signed by the Chicago White Sox.

Wade Killefer is highly elated over the deal that gave him Jimmy McAuley.

The Indianapolis club has purchased pitcher Turkey Boman from the Little Rock club.

The Portland club has surrendered its rights to pitcher George Pennington to the Hartford club.

Pitcher Herb Hall will not report to Kansas City, but will pitch for an independent team in Lozanoport, Ind.

Claude Hendrix is one pitcher who says he will not lose his effectiveness as a pitcher by the abolition of the spitball.

The St. Paul club avoided contro-

versies over contracts by not sending out the papers until the last week of February.

The St. Louis Browns have quite a colony of former Joplin players on their squad, including Roy Sanders, Maple, Burwell, Collins and Thompson.

The St. Louis Browns are to set a shining example to the other clubs in the American league this season. They will wear special uniforms in all Sunday games.

Outfielder Beals Becker of Kansas City, disappointed because a deal was not made to transfer him to the Pacific Coast, has announced he will not report to the Blues this year.

Ray Demmitt, who outfielded for the St. Louis Browns last year, has signed a contract to play with the Stanley Industrial team at Decatur, Ill., managed by Joe McGlinchy.

The Nashville club of the Southern league has sold pitcher Gus Helfrich to Fort Worth of the Texas league. Too much dependence on the spitball is the reason given for his demotion.

The aviators at Kelley field, Texas, have discovered that Bill Cunningham, former Cleveland Indian, is in camp. They are planning to have one of the fastest baseball teams in the army this summer.

Mike Kelley of the champion St. Paul Saints is going to rebuild his pitching squad out of a quintet of youngsters—Ed Moore, Rube Eberhardt, Eddie Foster, Jim Browne and John Overlock.

The White Sox promise to start the season with about the same lineup they had when the 1919 campaign opened.

There will be no trades involving regular members of the Cincinnati Reds, according to President Garry Herrmann.

Karl Adams, pitcher with the Toledo club of the American Association last season, has signed with the Indianapolis club.

Frank Schulte, former Cub and National, will try to knock down the fences in the International league again this season.

Jack Coffey, former Fordham star, will again manage and play second base for the Des Moines club of the Western league.

The University of California baseball nine will make a tour of prominent middle western and eastern colleges this spring.

Joe Judge is the only Washington infielder who is sure of holding his job this season. Shannon is almost a sure thing at second.

The Boston Americans have sent infielder William B. Satterlee to the Portsmouth club of the Virginia league for further seasoning.

The Yankees are not getting far in landing another star outfielder to work with Ruth and Lewis. Maybe Ping Bodie will hold his job.

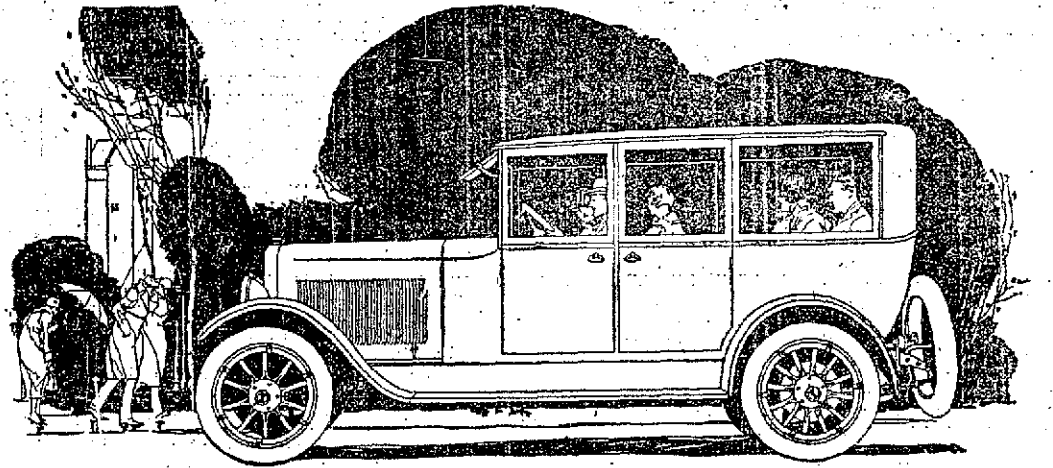

Boston fans are pining for Frazee hard now that the Red Sox look as if they will have a tough job staying in the first division even.

Owner Jim Dunn of the Cleveland club has decided to enlarge the seating capacity at the Indians park with a new stand to seat about 3,500.

Fred Luden has to have to battle Gene Paulette for the first base job on the Phillies this spring. Paulette has youth in his favor, but Luden's ability to hit long drives may win the place for him.

CHANDLER SIX

Famous For Its Marvelous Motor

Why So Many Prefer The Chandler Six

THE appeal of the handsome Chandler Sedan and Coupe is far-reaching among men and women who are appreciative of the better qualities of motor car design and construction and finish.

The beauty of line and snug comfort and fine upholstery and finish naturally appeal to them in a great degree. But they all appreciate quite as much the ease of driving the Chandler Six, the unusual flexibility of the power of its marvelous motor, simplifying control of the car in traffic and adding no end of pleasure to open-road driving.

The Chandler Sedan, quite the most attractive of sedans, seats seven persons in perfect comfort or five without the use of the folding spring-cushioned chair seats. The Coupe seats three persons in luxurious comfort, or four when the large deep-cushioned auxiliary seat is used.

The Chandler car, in all models, is more fairly priced than any other car of similar quality.

Feels "Squiggeley" to Drop 122 Feet, Says Girl Diver

Miss Helen Carr's Imagination Always Works at High Speed in Plunge That Takes Less Than Three Seconds.

MISS HELEN CARR

What does a diver think about on the way down?
This is the question every person who visits Charles Dillingham's "Happy Days" at the New York Hippodrome, asks himself after seeing Miss Helen Carr, famous flying fish in "Happy Days," drop 112 feet into the pool on the Hippodrome stage.
According to the laws of acceleration of falling objects, the actual fall into the water requires something less than three seconds, but Miss Carr insists that three seconds, under the conditions, suffices for considerable thinking. Miss Carr says her sensations during the drop never include those of fear, and are more apt to be grotesque and fanciful than otherwise.
On several occasions Miss Carr has been certain that one of the Hippodrome elephants was occupying the exact spot in the big pool which she had picked out for a landing place. At least once this presentment has been so strong that subconsciously she twisted her body sufficiently to strike the water with her back to the audience instead of with her side to the audience in the usual manner. Miss Carr insists that a "delightfully squiggeley feeling" accompanies the dive.

Adorable Dresses

—exquisite, delicate, girlishly simple as all commencement frocks should be, are lying hidden away in the folds of lovely, sheer cottons, just waiting to be discovered and made by devoted mothers and expert dressmakers. Here are:

Crisp Organdies

—delicate greens and blues, palest topaz, pink, apricot and rose for party frocks and nothing could be prettier or better suited to the charming, alluring youthfulness of the wearers. Here, also, are finest white organdies for the commencement frock itself. These come 44 inches wide and are priced, the yard, at \$1.25, 1.50 and \$2.35

Net Flouncings—

—lace trimmed and ruffled, sometimes with organdie tucks of pink, blue or yellow, but often just tucked. They come in point d'esprit or plain net and will make the loveliest of frilly frocks at very little cost.

Two depths, 27 inches for Eighth grade girls of First Communicants, and 40 inches for older girls are shown at

\$8.50 the yard

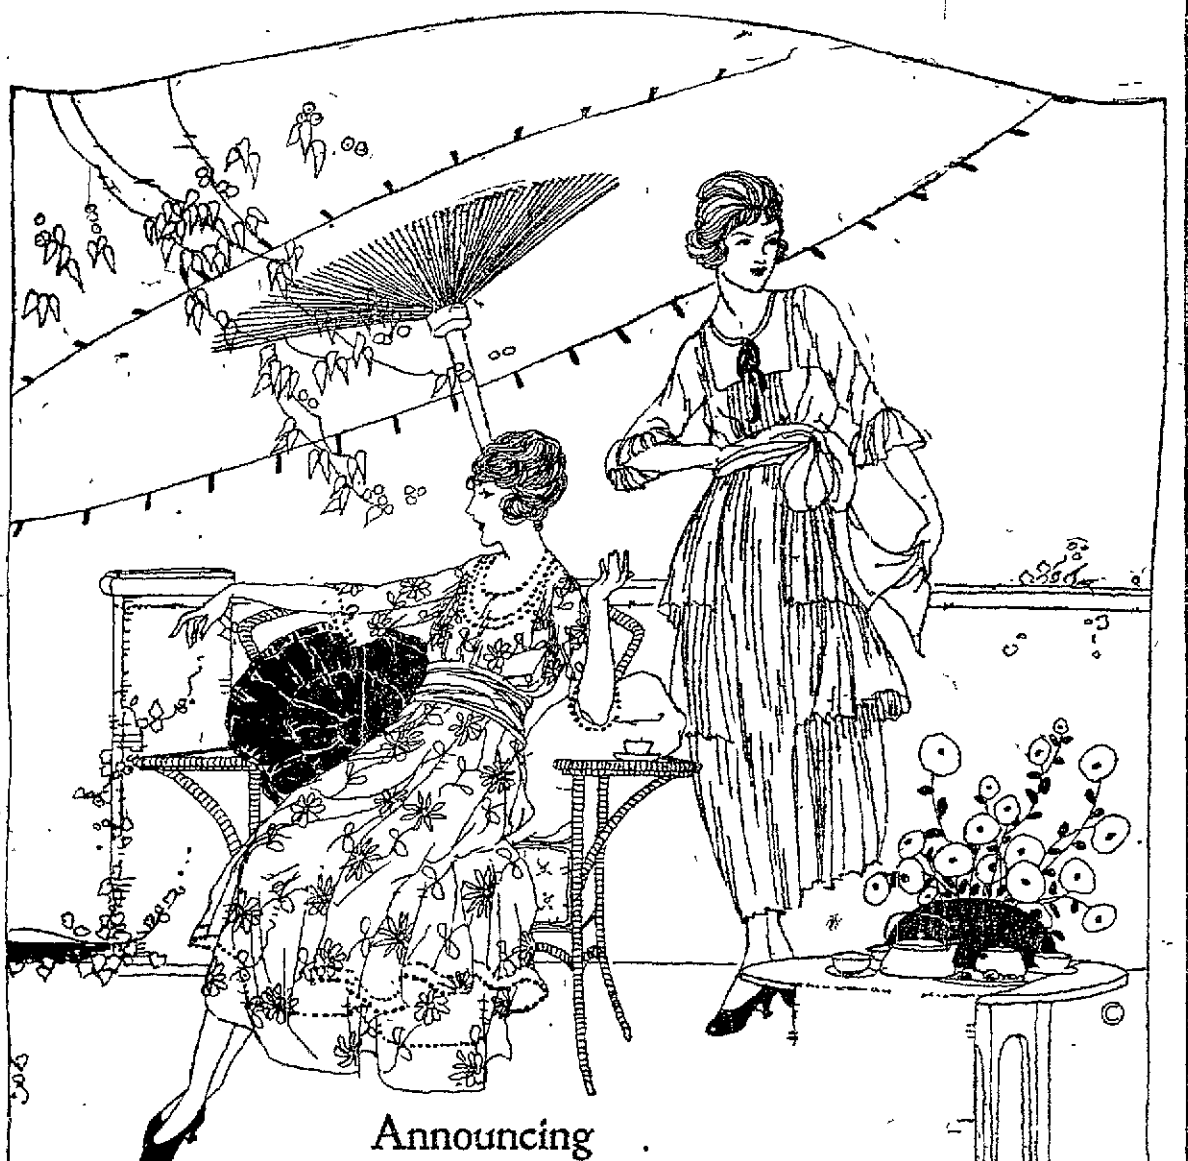

Lovely Voiles—

—just begging to be bought and turned into exquisite dresses so fine and sheer, come in Spring-like colorings. Here are apple greens, forget-me-not blues, sunshiny violets and the bluish pink of wild crab apple blossoms, all the delicate colors so becoming to sweet girlhood. Here, too, are printed voiles with Georgette designs of scrolls, floral clusters or conventional prints and white voiles, fine almost as chiffon, 40 inches wide and \$1 and \$2 the yard.

Colored and printed voiles, 36 and 38 inches wide are, the yard,

85c, \$1.50, \$1.75, \$2.00

Gold Bond Stamps paying
\$4 on every \$100 spent
will pay you well

—in these "Special Purchase Garments" are exactly
35 different and distinct styles

WRIGHT-METZLER CO.

THE KITCHEN CABINET

The day returns and brings its petty round of irritating concerns and duties. Help us to perform them with laughter and kind faces; let cheerfulness abound with industry. Give us to go blithely on our business this day.—R. L. Stern.

SIMPLIFY YOUR MEALS.

Those who know tell us that the average American of the well-to-do classes eats at least one-third more food than is necessary or safe, and that seven-eighths of our diseases are caused from improper food and also, in large degree, improper eating.

Herace Fletcher, who gave to the world so much on the way to eat and what to eat, advocated the long mastication of foods, chewing twice as long, and in consequence the appetite is satisfied with much less food.

A simple experiment which has been often repeated is that of chewing a mouthful of bread and butter until it swallows itself, without any effort, it will develop a flavor in the mouth which will be a surprise to all rapid eaters. The starch is partly changed by the action of the saliva which is never noticed when food is bolted.

On a busy day the house mother who can serve a wholesome one-piece dish which will be sufficiently satisfying is using economy both of time and of fuel. There are any number of such dishes from chowders to casserole dishes. The following has been given several times but may be repeated. It is so good: Put sufficient sliced potatoes in a shallow baking pan, for the family, cover with a thin sliced onion and pork chops fried on one side and placed cooked side down on the potatoes. Season well and bake until the potatoes are tender. No molasses need be added unless the potatoes have lost much moisture.

A salad dressing which is very good and is always ready to serve on any kind of a salad is made of corn oil added a little at a time to beaten yolk with lemon juice, just as one makes mayonnaise. It looks and tastes almost as good as olive oil mayonnaise. To this dressing may be added for variety chopped onion, peppers, celery, peas or any cooked vegetable at hand. The same dressing plain with whipped cream added makes a good dressing on fruit salad.

Heidi Maxwell

RICHARDS GIVES UP TENNIS

On Account of Eyes Title Holder Will Not Defend Honors—Courts Are Poorly Lighted.

Vincent Richards, holder of the indoor tennis title, will not defend his honors this year. Richards has just been compelled to give up indoor tennis because of the strain on his eyes. In door courts are poorly lighted.

Through the Soul's Eyes.

Physical eyes may measure the possibilities that return effort in terms of dividends, but it takes vision of the soul to become a benefactor to your fellows. Effort for personal gain must be selfish beyond measure. If it does not benefit more than the first actor. Even when it does not seem to be a help to anyone there are reflexes that are sure to reach men in various walks of life. But the world needs the work of the greater man. He may seem mediocre to his fellows. They may even coddle themselves into imagining their own superiority. What he does will show the difference. Intuitively he will sense the need of the times and without seeming to patronize he will make people appreciate him as friend.—Exchange.

Churches Observe Candlemas Day.

Candlemas day, celebrated as the day of Christ's presentation at the temple, is observed in the Anglican, Roman and Greek churches. February 2, this day being the fortieth after the birth of Christ, on which the purification of the mother and the presentation of the son should occur according to Levitical rules. The institution of the festival is attributed to Pope Gelasius, in the latter part of the fifth century, in many details showing itself to be a Christianization of the pagan Festival, celebrated in ancient Rome at about the same period. The special services of the day among Roman Catholics consist of a blessing of candles by the priests.

New Version of Old Saw.

"A man is as old as he feels," quoted the parrot philosopher.
"And a woman is as old as her photograph taken about fifteen years ago," added the mere man.—Pearson's Weekly.

Modified.

"Are you an optimist?"
"I am. Aren't you?"
"Yes. But just the same I've gotten over my cheerful confidence that stocks are going to prosper and go up every time I play them."

An Epitaph.

Beneath this stone
Lies Jasper Lodge,
He thought a trolley car
Could dodge.

At the Theatres

THE SOISSON

"STRONGER THAN DEATH"—With Nazimova, the great Russian star, is seen in a powerful role, is being shown today.

In "Stronger Than Death," Nazimova returns to powerful emotional roles after her clever impersonation of the chorus wait in her picturization of "Maurice Maeterlinck's Blue Bird." Nazimova is cast as Sigris, a London music hall dancer, who finds love in the almost wilderness of India, whither she goes for rest. The story is an adaptation by Charles Bryant of J. A. R. Wylie's brilliant novel of Anglo-Indian life. It is said to be replete with thrills and compelling dramatic climaxes that grow out of an abortive mutiny and massacre of the English planned by the fanatical Hindu natives. Nazimova's biggest scene is her dances on the steps of the temple—a weird dance in the moonlight which strikes awe and terror to the hearts of the blacks, and causes them to delay their uprising until the British garrison comes to the rescue of the civilian community of Gaya. Her sacrifice is rewarded by the devotion of the heroic doctor, the strong male figure in the lease drama.

THE PARAMOUNT.

"THE HEART OF A GYPSY"—A powerful drama, with Florence Rillings in the leading role, is being shown today. The picture is in five acts and is rated as a high class production. The photography is excellent and the direction is good. Miss Rillings is unusually attractive in the leading role. She is supported by a cast of well known players. A selected comedy is being shown, also.

Friday and Saturday the second chapter of the serial, "The Silent Avenger," with William Duncan in the leading role, and "The Strange Boarder," starring William Rogers, will be presented.

Mill Run.

MILL RUN, April 20.—Mr. and Mrs. H. C. Krepps were Connelleville callers Saturday.

Mr. and Mrs. W. H. Friend of Connelleville spent Sunday in their summer home above Mill Run.

Charles Shearer of Glassport spent a few days here last week visiting his mother.

Rev. and Mrs. F. S. Wortman were in Connelleville yesterday.

American Steamer Aground.

TRIESTE, April 20.—The American steamer Susquehanna, with 450 passengers and a crew of 280 men, is aground near Lussino on the Dalmatian coast, near Pola. The passengers are being transferred to the steamer Argentina.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.
